CONTENTS

Chapter - I : INTRODUCTION

Historical Background

I. Title and meaning of the terms
   (A) Intellect (or Intelligence)
      (i) Bird's eye-view of observational, biological, physiological and individual psychology
      (ii) Factorial picture
         (a) Intelligence
         (b) Intellectual faculties
   (B) Variation of Intellect due to schooling and other environmental hereditary factors
      (i) Age
      (ii) Sex
      (iii) Occupational and geographical differences

II. Previous researches : Methods and tests used
   (A) Methods
      (i) Longitudinal studies (i.e. testing-re-testing techniques)
      (ii) Cross-sectional studies
   (B) Tests used

Chapter - II : GENERAL PLAN OF THE RESEARCH

A. Design of the investigation

B. Sampling
   (i) History of the systems
      (a) M.U. High School Examination System
      (b) U.P. Board High School and Intermediate Examination System
      (c) Public School Examination System
Chapter II (Contd.)

(ii) Choice of the subjects

(1) Age 72
(2) Sex 74
(3) Socio-economic (including religious-regional) and other variables 75

(a) Religious variable 75
(b) Locality (Rural and Urban) 76
(c) Father's income & status 78

C. Testing Sessions 79

D. Normalisation of Raw Scores 79

Chapter III: DESCRIPTION OF THE ABILITY TESTS 87

Section 1: Ability tests as a measure of 'Intelligence' 87

1.1: Ray-Chowdhury's Aligarh V.I.T. 87

(a) Source & Description 87
(b) Instructions for giving the test: Scoring and deductions 89
(c) Normalising the raw scores 91

1.2: Vernon's Non-verbal 'g' test 100

(a) Source & Description 100
(b) Scoring 101
(c) Normalising the raw scores 101

1.3: Vernon's Pattern Drawing test 103

(a) Source & Description 103
(b) Scoring 105
(c) Normalising the raw scores 105

1.4: Vernon's Pattern Reproduction test 107

(a) Source & Description 107
(b) Scoring 108
(c) Normalising the raw scores 108
### Chapter - III (contd.)

<table>

| 1.6 | Raven's Progressive Matrices | 113 |
| (a) Source & Description | 113 |
| (b) Scoring | 117 |
| (c) Normalising the raw scores | 118 |

| 1.7 | Lovell's hidden Gottschaldt shapes | 120 |
| (a) Source & Description | 120 |
| (b) Scoring | 121 |
| (c) Normalising the raw scores | 121 |

| 1.8 | Trist-Hargreaves' Concept-formation Test | 123 |
| (a) Source & Description | 123 |
| (b) Scoring | 124 |
| (c) Normalising the raw scores | 124 |

| 1.9 | Lovell's Concept-formation test | 126 |
| (a) Source & Description | 126 |
| (b) Scoring | 129 |
| (c) Normalising the raw scores | 129 |

### Chapter - IV : STATISTICAL ANALYSIS OF THE DATA

<table>
<thead>
<tr>
<th>Section 1</th>
<th>Reliability &amp; validity of ability test</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1</td>
<td>Reliability</td>
<td>131</td>
</tr>
<tr>
<td>(i) Split-half Reliability</td>
<td>133</td>
<td></td>
</tr>
<tr>
<td>(ii) Significance of the reliability figures</td>
<td>136</td>
<td></td>
</tr>
</tbody>
</table>

| 1.2 | Validity | 138 |

| 1.3 | Study of the overlapping between the seventeen ability tests as given in Table XXII | 148 |

| 2 | Factorisation of Table XXII of Inter-correlation Matrix of seventeen ability tests | 150 |
Chapter IV (contd.)

Section 2.a : Centroid Method

(1) Extraction of the factor
   (ii) Total variance of the tests
   (iii) Rotation of the orthogonal reference axes

Chapter V : Influence of Schooling under different systems of Secondary education on the intellectual factors in Pre-school leaving children

Section 1 : Statistical Methods

Part I : Testing the variation of intellectual factors in the pre-school leaving children under three systems of secondary education in terms of overall difference between the groups

Part II : Testing the variation of intellectual factors in terms of top and bottom scorers selected from each of the three groups, chosen from the three different educational systems

Section 2 : Interpretation of the results obtained by the various differential techniques used in the previous section.

A. Factor structure (Concept-formation and verbal numerical i.e., educational group factor : \( k^2 \) tests)

1. Best-reasons

   (i) C.R.
   (ii) 't' value of high scorers
   (iii) 't' value of low scorers

2. Simple-reasoning

   (i) C.R.
   (ii) 't' value of high scorers
   (iii) 't' value of low scorers
Chapter V (cont.)

3. Extra-number
   (i) C.R. 182
   (ii) 't' value of high scorers 182
   (iii) 't' value of low scorers 182

4. Vernon's Graded Arithmetic-Mathematics 183
   (i) C.R. 183
   (ii) 't' value of high scorers 183
   (iii) 't' value of low scorers 184

5. V.I.T. 184
   (i) C.R. 184
   (ii) 't' value of high scorers 185
   (iii) 't' value of low scorers 185

6. Lovell's Concept-formation 186
   (i) C.R. 186
   (ii) 't' value of high scorers 186
   (iii) 't' value of low scorers 186

7. Trist-Hargreaves' Concept-formation 187
   (i) C.R. 187
   (ii) 't' value of high scorers 187
   (iii) 't' value of low scorers 188

B. Factor structure (spatial-induction group factor & k3 tests) 188

1. Extra-number 188
2. Vernon's Graded Arithmetic-Mathematics 188
3. Vernon's non-verbal 'g' 188
   (i) C.R. 188
   (ii) 't' value of high scorers 188
   (iii) 't' value of low scorers 189
4. Raven's Progressive Matrices 189
   (i) C.R. 189
   (ii) 't' value of high scorers 189
   (iii) 't' value of low scorers 190
Chapter - V (contd.)

5. Vernon's Pattern Reproduction
   (i) C.R.  
   (ii) 't' value of high scorers  
   (iii) 't' value of low scorers

6. Gottschaldt
   (i) C.R.  
   (ii) 't' value of high scorers  
   (iii) 't' value of low scorers

7. Vernon's Drawing Pattern
   (i) C.R.  
   (ii) 't' value of high scorers  
   (iii) 't' value of low scorers

8. Lovell's Concept-formation

9. Trist-Hargreave's Concept-formation

Chapter - VI : SUMMARY OF CONCLUSIONS
