ACKNOWLEDGEMENTS

The author expresses his most sincere gratitude to all his respected teachers during his post graduation and doctorate courses specially Professor A.R.Kidwai and Professor Mohsin Qureshi who always remained a real source of inspiration. During his visit to the University of Rome, Italy as a Post Doctoral Fellow the author was highly impressed by Professor Aldo LaGinostra, Professor G.Alberti and Professor U.Costantino by their all time help and useful discussions which provided him the most needed encouragement for higher studies.

The author acknowledges with thanks the full affection and timely guidance from his senior colleagues Professor A.U.Malik, Professor K.T.Nasim, Professor M.Ajmal and Professor K.M.Shamsuddin, apart from the best possible help from his other colleagues. He is also thankful to his friends Professor S.Z.Qureshi and Dr. J.P.Nawat for their useful academic discussions and suggestions. He will be failing in his duties if he overlooks the hard work put up by his excellent research team during the last span of 20 years.

The author also wishes to express his thanks to the technical, clerical and other non teaching staff of the Department for their full cooperation which made the task easier. Special thanks are due to Mr.Zainuddin for his useful suggestions. Mr. H.C.Saxena, typist, is thanked for his excellent typing skills.

Finally, the author is highly indebted to his family members and relatives who always encouraged and gave full moral support to him in his academic pursuits and remained by his side at the time of distress. His mother, wife and children deserve a special appreciation for the sacrifice of their emotional sentiments as the author could not have shared many a pleasant moments with them because of his awfully busy and abnormal work schedules.
