ACKNOWLEDGEMENT

I express my deep respect and profound sense of gratitude to Prof. Mohammad Shafi for his inspiring guidance and keen interest during the course of my research studies and academic pursuits. It is an opportunity to express my sincere thanks to Dr. Mohammad Zafar, who has been a continuous source of light and learning for me throughout this period. I am thankful with the core of my heart to Prof. M.L.R. Khan, the Head of the Department of Physics, Aligarh Muslim University, Aligarh, for providing all the necessary facilities specially concerned with my research programme. I owe a sincere thanks to Dr. Mohd. Irfan for many useful suggestions and advices.

I feel it my pleasure duty to thank Messers Tariq Arif, A.R. Khan and Aftab Ahmad for their constructive and relevant discussions and cooperation in collecting useful data. I am also grateful to Dr. Rashid Hasan, Mr. Usman Ali and Mr. A.H. Zargar, who have helped me in many ways. Mr. I.A. Jilani deserves my thanks for typing this thesis. Finally I am also indebted to Dr. Abdul Haq and my reverend brothers Mr. Shamshad Alam, Dr. Lilshad Alam and Mr. Shakeel Ahmad for their collective support and encouragement.

The financial assistance from the University Grants Commission, Govt. of India is also acknowledged with thanks.

Shafiq Ahmad
