LIST OF FIGURES

Figure 1 Stomach ................................................................. Error! Bookmark not defined.
Figure 2 Histology of stomach ........................................ Error! Bookmark not defined.
Figure 3 Mechanism of gastric acid secretion ..................... Error! Bookmark not defined.
Figure 4 Vaid serving tribal medicine to local people .......... Error! Bookmark not defined.
Figure 5 Bark of Dalbergia sissoo ...................................... Error! Bookmark not defined.
Figure 6 Carissa carandas .................................................. Error! Bookmark not defined.
Figure 7 Leaves of Gymnema sylverstre ............................ Error! Bookmark not defined.
Figure 8 Photographs showing effect Control (500mg/kg) .... Error! Bookmark not defined.
Figure 9 Photographs showing effect Pet. Ether (500mg/kg) Error! Bookmark not defined.
Figure 10 Photographs showing effect Alcohol (500mg/kg) .. Error! Bookmark not defined.
Figure 11 Photographs showing effect of Chloroform (500mg/kg) Error! Bookmark not defined.
Figure 12 Photographs showing effect of Aqueous (500mg/kg) Error! Bookmark not defined.
Figure 13 Photographs showing effect of Standard (500mg/kg) Error! Bookmark not defined.
Figure 14 Photographs showing effect of Control (500mg/kg) Error! Bookmark not defined.
Figure 15 Photographs showing effect of Pet. Ether (500mg/kg) Error! Bookmark not defined.
Figure 16 Photographs showing effect of Alcohol (500mg/kg) Error! Bookmark not defined.
Figure 17 Photographs showing effect of Chloroform (500mg/kg) Error! Bookmark not defined.
Figure 18 Photographs showing effect of Aqueous (500mg/kg) Error! Bookmark not defined.
Figure 19 Photographs showing effect of Standard (500mg/kg) Error! Bookmark not defined.
Figure 20 Photographs showing effect of Control (500mg/kg) Error! Bookmark not defined.
Figure 21 Photographs showing effect of Pet. Ether (500mg/kg) Error! Bookmark not defined.

Figure 44 Ulcer Index in AAI model of formulations
Figure 45 Ulcer Index in PI model of formulations
Figure 46 Ulcer Index in SI model of formulations
Figure 47 Control- Showing edema and leucocyte infiltration, inflammation, necrosis
Figure 48 Standard- Showing normal epithelium lining, no leucocyte infiltration, no inflammation
Figure 49 Formulation-A Showing normal epithelium lining, no inflammation
Figure 50 Formulation B: Mild inflammation, blood vessels dilation.

Figure 51 Formulation C: Small amount of leucocyte migration, less tissue necrosis.

Figure 52 Formulation D: Epithelial cells get ruptured in small amount, mild leucocyte migration seen.
