With a deep sense of gratitude and indebtedness I wish to take the opportunity to express my sincere thanks to my revered supervisor, Professor Mohammad Shafi, Professor Emeritus in the Department of Geography, Pro-Chancellor and (Ex) Vice-Chancellor of The Aligarh Muslim University, Aligarh, who inspite of his major pre-occupations has been extremely kind enough to supervise me for the completion of this work. His profound and unparalleled knowledge, deep understanding and penetrating analysis bears imprint of his balanced criticism and approach in the execution of this work.

I also wish to express my thanks to Professor Akhtar Majeed, Director, Centre of West Asian Studies who at every step helped and encouraged me to complete this work. Without his active support, it would not have been possible to complete this work. I am equally thankful to Professor Khalid Zaheer Amani, Chairman, Department of Geography for his valuable advise and suggestions and providing necessary facilities to undertake and complete this work.

I also feel highly indebted to Dr. Ali Mohammad, Reader, in the Centre of West Asian Studies. My special thanks are to him for his meaningful suggestions, help and affection. Besides he was a constant source of inspiration to me.
The completion of this thesis would not have been possible without the unsparing help and generosity extended to me by Dr. Nafisur Rahman, Department of Chemistry. I have no words to express my thanks to him for his prompt help in the hour of need.

My special thanks are also due to Dr. Ahmad Ali Bozorgzad and Mr. Dehghan Ali Tafti for providing me necessary research material and rendering persian paragraphs into English language which was of an immense help to me in the shaping of this thesis.

I also record my appreciation to various staff members of the libraries both Iranian, Indian and also FAO for their cooperation and assistance.

I am extremely grateful to my mother, who blessed, consolled and supported me throughout the course of my academic persuit. I am also very very thankful to my younger brother, Anisur Rahman, for his material and moral support. I also record my sincere thanks to my brother-in-law, Dr. Hifzur Rahman, for his moral support. My wife (Salma) too deserves a lot of thanks who cheerfully helped me in the completion of this work.

I would be failing in my duty if I do not thank the University Grants Commission for providing me Junior and Senior Research Fellowship through National Educational Test (NET) to complete this work.
