Contents

Chapter 1
Introduction..........................................................1-25

Review of Literature 5
1.1 Clupeoids and Sardines 5
   1.1.1 Taxonomy 10
1.2 Marine Lipids and Polyunsaturated Fatty Acids 13
   1.2.1 Eicosapentaenoic Acid (EPA) 14
   1.2.2 Docosahexaenoic acid (DHA) 15
   1.2.3 Metabolism 15
1.3 Sardines and PUFA 17
1.4 PUFA and Nutrition 17
   1.4.1 Pregnancy and Child Birth 19
   1.4.2 Depression 19
   1.4.3 Cardiac Disorders 20
   1.4.4 Rheumatic Disorders 21
   1.4.5 Cancer 21
   1.4.6 Omega 3 Enriched Products 22
1.5 PUFA and Pharmaceuticals 22
1.6 Research Objectives 24

Chapter 2
Seasonal analysis of fatty acids in Sardinella longiceps and Sardinella fimbriata.........................26-42

2.1 Introduction 26
2.2 Materials and Methods 27
   2.2.1 Fish samples 27
   2.2.2 Analysis of fatty acids 28
   2.2.3 Extraction of Total Lipids 28
   2.2.4 Fatty Acid Methyl Ester Method 30
   2.2.5 Presentation of Measures 31
2.3 Results 31
2.4 Discussion 38
2.5 Conclusion 42
Chapter 3
Extraction of polyunsaturated fatty acids from
*Sardinella longiceps* and *Sardinella fimbriata* .......... 43-50

3.1 Introduction 43
3.2 Materials and Methods 47
   3.2.1 Preparation of the Extract 47
   3.2.2 Saponification 47
   3.2.3 Urea Complexing 48
   3.2.4 Low temperature Fractional Crystallisation 48
3.3 Results and Discussion 49
3.4 Conclusion 50

Chapter 4
Anti-bacterial studies of PUFA extracts from
*Sardinella longiceps* and *Sardinella fimbriata* .......... 51-63

4.1 Introduction 51
4.2 Materials and Methods 52
   4.2.1 Extract Preparation and Determination of PUFA Composition 52
   4.2.2 Antibacterial Assay 53
   4.2.3 Statistical Analysis 54
4.3 Results 54
4.4 Discussion 60
4.5 Conclusion 63

Chapter 5
Anti-diabetic studies of PUFA extracts from
*Sardinella longiceps* and *Sardinella fimbriata* .......... 64-90

5.1 Introduction 64
   5.1.1 Lipids and Diabetes 65
   5.1.2 Kidney diseases and Diabetes 66
   5.1.3 PUFA and Diabetes 67
5.2 Materials and Methods 69
   5.2.1 Extract Preparation and Determination of PUFA Composition 69
   5.2.2 Experimental Animals 69
   5.2.3 Induction of Experimental Diabetes 69
   5.2.4 Study design 70
Chapter 6
Anti-cancer studies of PUFA extracts from Sardinella longiceps and Sardinella fimbriata:
Breast and Prostate cancer........................................................................91-105
6.1 Introduction 91
   6.1.1 Breast Cancer 92
   6.1.2 Prostate Cancer 93
6.2 Materials and Methods 95
   6.2.1 Extract Preparation and Determination of PUFA Composition 95
   6.2.2 Cell Culture 95
   6.2.3 Assessment of Cell Viability 96
   6.2.4 Statistical Analysis 97
6.3 Results 97
6.4 Discussion 100
6.5 Conclusion 104
Chapter 7
Summary and Conclusion.......................................................................106-111
7.1 Recommendations for Dietary Intake 107
7.2 Recommendations for Nutrition Industry 109
7.3 Recommendations for Pharmaceutical Industry 110
7.4 Future Directions 110
APPENDIX
BIBLIOGRAPHY
