Acknowledgements

I pray and thank to the ALMIGHTY ALLAH for His great mercifulness and choicest blessings generously bestowed on me, without which I could have never seen this work that is really too wide and extensive in coverage.

For a person like me, who had just left the formal classroom learning and undertook an ambitious project like the present one, it is no exaggeration to put on record the indebtedness and my profound gratitude to a person, not less than the stature of Dr. Abdul Quayyum Khan, under whose able guidance I had the privilege to undertake and complete this work. I have been immensely benefited by the vast knowledge and experience of my research supervisor Dr. Khan and I have no hesitation to place on record that it is the result of his untiring efforts, inspiration and encouragements that I could pass through many odds and turmoil, before completing this work. I feel really proud to be a student of an adorable personality like him. I am also thankful to all Faculty Members for their moral support and encouragement.

I shall also remain beholden to Prof. Qamaruddin Khan, Dean, Faculty of Commerce and Chairman, Department of Commerce, A.M.U., Aligarh, whose fatherly patronage and moral support have been the great source of inspiration and moral support during the entire period of my study.

I am not able to translate my sense of utter gratitude to Dr. Mohammad Faiyaz, Guest Faculty, Commerce Section, Abdullah Girls College, A.M.U., Aligarh for his formal and informal cooperation, moral support and inspiring words at every stage of this work. I am deeply indebted to him.

I like to thank Mr. Mohd. Ziaur Rahman and Mr. M.Rahmatullah for their moral support and Mr. Zulfiqar Ahmad for providing me his Personal Computer for preparing the thesis. Thanks are also due to Mr. Mohd. Razi for his painstaking role on computer
during the preparation of the thesis that certainly has contributed to the quality of this. I am whole-heartedly grateful to all of my friends and well wishers.

I also owe greatly to Mrs. Shakeela Khanam (wife of Dr. A. Q. Khan) and her children for their support and hospitality that made me feel like home during the entire course of the study.

I shall be failing in my duty if I do not express my sincere thanks to Dr. Shakeel Ahmad, Union Minister of State for Communication and Information Technology, Government of India, Mr. Rajiv Rastogi, Director, Department of Information Technology, GOI, and Mr. S. Ibrahim Ahmad, Editor, Data Quest and Voice & Data, who extended their cooperation and help in collecting the information and data needed for this study, which could otherwise not have been made available to me.

The unfathomable blessings, good wishes and Dua of my Parents are the spiritual strength with which I have persuaded this academic work. My Sisters and Brothers ever lasting bonanzic love and affection have provided me enough mental and moral strength to accomplish this task successfully.

Last but not the least, I am also thankful to all non-teaching staff of Seminar, Faculty and Department of Commerce for their help and cooperation.

Despite all efforts to make the thesis free from error, there may be errors still left unnoticed for what the author takes all the blame personally.
