ACKNOWLEDGEMENT

I wish to express my profound sense of gratitude and indebtedness to Prof. Y.K. Agrawal, Pharmacy Department, Faculty of Technology and Engineering, M. S. University of Baroda, for suggesting the research problem and for his constant advice, keen interest, helpful criticism and able guidance during the entire course of this investigation.

My sincere thanks are due to Prof. O.H. Patel, Dean, Faculty of Technology and Engineering, Prof. S.K. Banerjee, Head, Pharmacy Department and Prof. A.M. Talati, Head, Applied Chemistry Department, Faculty of Technology and Engineering, M.S. University of Baroda, for granting the permission and providing the necessary facilities.

I am grateful to Prof. S.S. Merh, Dean, Faculty of Science, for hisrender help, invaluable suggestion and constant encouragement during the entire course of this research project.

I take this opprotunity to extend my thanks to Dr. V.A. Kamath, Head, Library and Information Division, B.A.R.C. Bombay, for providing necessary library facilities.
I am also thankful to the personnel of the Applied Chemistry Department, Faculty of Technology and Engineering for this generous help.

I am grateful to Shri R.C. Bhaiya, Consulting Director, Textile Mills Association, for giving moral support during the very difficult periods of my research work.

I am highly indebted to my mother for her constant encouragement and inspiration throughout during the course of this investigation.

I consider it my duty to inscribe my sincere gratitude to my family, fellow research workers (Analytical laboratory, Pharmacy Dept.) who have directly or indirectly helped during the course of this work.

A word of thanks in due to the CSIR, New Delhi, for the award of senior research fellowship and financial assistance.

S.K. PATKE
