LIST OF TABLES

TABLE PAGE

IV-1 Grade and sex-wise distribution of students included in the study 80
IV-2 Brief description of the fourteen HSPQ personality factors 84
IV-3 Reliability co-efficients of the attitude scale 113
IV-4 Reliability co-efficients of the competence test 127
IV-5 Intercorrelations among five parts of the competence test for three grade levels 130

V-1 Means and standard deviations of scores on career maturity measures at three grades 133
V-2 Means and standard deviation of scores on career maturity measures for boys at three grades 134
V-3 Means and standard deviations of scores on career maturity measures for girls at three grades 134
V-4 Two way (grade x sex ) analysis of variance with respect to scores on career maturity measures 135
V-5 Significance of differences amongst pairs of means of the three grades: VIII, X & XII on career maturity measures 137
V-6 Significance of differences amongst pairs of means of three grades: VIII, X & XII for boys and girls on career maturity measures 144
V-7 Sex differences at three grade levels for career choice attitudes 151
V-8 Sex differences at three grade levels for self appraisal 153
V-9 Sex differences at three grade levels for occupational information 154
V-10  Sex differences at three grade levels on planning
V-11  Correlations of measures of career maturity with socio-economic status at three grades for boys & girls
V-12  Correlations of measures of career maturity with intelligence at three grades for boys and girls
V-13  Correlations of measures of career maturity with level of vocational aspiration at three grades for boys and girls
V-14  Correlations of measures of career maturity with participation in school activities at three grades for boys and girls
V-15  Correlations of measures of career maturity with participation in out of school activities at three grades for boys and girls
V-16  Correlations of measures of career maturity with fourteen personality factors at three grades for boys and girls
V-17  Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for VIII grade boys
V-18  Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for VIII grade girls
V-19  Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for X grade boys
V-20  Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for X grade girls
V-21 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes for XII grade boys
V-22 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with career choice attitudes of XII grade girls
V-23 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for VIII grade boys
V-24 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for VIII grade girls
V-25 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for X grade boys
V-26 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for X grade girls
V-27 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for XII grade boys
V-28 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with self appraisal for XII grade girls
V-29 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for VIII grade boys
V-30 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for VIII grade girls
V-31 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for X grade boys

217 219 220 220 222 222 224 224 226
| V-32 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for X grade girls | 226 |
| V-33 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with occupational information for XII grade boys | 228 |
| V-34 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for VIII grade boys | 230 |
| V-35 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for VIII grade girls | 230 |
| V-36 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for X grade boys | 232 |
| V-37 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for X grade girls | 232 |
| V-38 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for XII grade boys | 234 |
| V-39 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with goal selection for XII grade girls | 234 |
| V-40 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for VIII grade boys | 236 |
| V-41 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for VIII grade girls | 236 |
| V-42 | Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for X grade boys | 237 |
V-43 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for X grade girls 237
V-44 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for XII grade boys 239
V-45 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with planning for XII grade girls 239
V-46 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for VIII grade boys 241
V-47 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for VIII grade girls 241
V-48 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for X grade boys 242
V-49 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for X grade girls 242
V-50 Step-wise multiple regression analysis of SES, INT, LVA, PISA, PIOSA and Personality measures with problem-solving for XII grade boys 243
V-51 Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of VIII grade boys 246
V-52 Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of VIII grade girls 248
V-53 Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of X grade boys 250
V-54  Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of X grade girls

V-55  Regression equation using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of XII grade boys

V-56  Regression equations using the combination of SES, INT, LVA, PISA, PIOSA and Personality for measures of career maturity of XII grade girls
