## CONTENTS OF TABLES

**Table-I.**

Showing Vernon's factor solution of Stephenson's results ............ 24

**Table-II-(a)**

Showing distribution of 288 cases according to different variables ........ 76

(COMMUNITIES DISTRIBUTION)

(b) Age distribution ............ 76

(c) Geographical and distribution of religion ............ 77

(d) Sex distribution ............ 77

**Table-III.**

Showing the average time limit taken by the subjects in the administration of the test. ............

**Table-IV.**

Normalisation of the raw scores of Raven's progressive matrices in experimental design no. 1. ............ 94 (a)

**Table V.**

Limits of percentile rank corresponding to respective normal scores ............ 94 (b)

**Table VI.**

Showing the corrections for sub-tests no.1, 2, 3, 5 and 7 in Aligarh V.I.T. ............ 102

**Table-VII:**

102

**Table-VIII:**

Showing the distribution and normalized scores of Aligarh V.I.T. ............ 103
Table-IX:
Showing the distribution and normalized scores of Vernon's 'g' tests .......... 106

Table-X:
Showing the distribution and normalized scores of Drawing pattern tests .......... 110

Table-XI:
Showing the distribution and normalized scores of Pattern reproduction tests .... 113

Table-XII:
Showing the distribution and normalized scores of Graded Arithmetic test .......... 117

Table-XIII:
Showing the distribution and normalized scores of Raven's Progressive Matrices .. 124

Table-XIV:
Showing the distribution and normalized scores of Gottschaldt's tests .......... 127

Table-XV:
Showing the distribution and normalized scores of Trist-Hargreave's tests ....... 129

Table-XVI:
Showing the distribution and normalized scores of Lovell's Concept-formation ... 135

Table-XVII: a-
Showing the limit of correction as deduction of marks .......... 136

Table - XVII: b-
Showing the split-half reliability coefficients (corrected by Spearman-Brown Prophecy formula) .......... 138
Table-XVIII-a:
Showing the split-half reliability coefficients (corrected by Spearman-Brown prophecy formula) for a sample of 288 boys and girls of 14 - 19 years in experimental design no. 1. 142

Table-XVIII-b:
Showing the split-half reliability coefficients (corrected by Spearman-Brown prophecy formula) for a sample of 300 boys from 19 - 36 year in experimental design no. 2. 142

Table-XIX:
Showing rotated factor loadings of six ability tests 149

Table XX:
Showing rotated factor loadings of 13 ability tests 150

Table-XXI:
Showing element validity of 'g' saturation 151

Table-XXII:a:
Showing Inter-correlation coefficients of 9 ability tests. 153

Table-XXII:b:
Showing Inter-correlation coefficients of 13 ability tests. 154

Table-XXIII:a:
Showing the final factor residuals of 9 tests with their proper signs 158

Table-XXIII:b:
Showing the final factor residuals of 13 tests with their proper signs 159

Table-XXIV:a:
Showing unrotated centroid factor matrix of 9 ability tests. 160
Table-XXIV: b:

Showing unrotated centroid factor matrix of 13 intelligence and attaintments tests. ............ 161

Table-XXV:

Showing rotated factor solution of 9 ability tests ............ 162

Table-XXVI: a:

Showing the level of significance of 't' values for 26 degree and 76 degree of freedom in experimental design no. 1. ............ 171

Table-XXVI: b:

Showing the level of significance of 't' values for 18 degree of freedom in experimental design no. 2. ............ 171

Table-XXVII(a-1)

Showing the 't' values with regard to Ray-Chowdhury's V.I.T scores, while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 172

Table-XXVII:(a-2)

Showing the 't' values with regard to Vernon's drawing pattern test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 173

Table-XXVII:(a-3)

Showing the 't' values with regard to Vernon's Pattern Reproduction Test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 174

Table-XXVII:(a-4)

Showing the 't' values with regard to Vernon's Graded Arithmetic-Mathemetic Test Score while picking-up highs (14 cases) from each age group ranging from 14 - 19 years ............ 175
Table-XXVII: (a-5)

Showing the 't' values with regard to Vernon's 'g' test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 176

Table-XXVII: (a-6)

Showing the 't' values with regard to Raven's progressive matrices test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years .... 177

Table-XXVII: (a-7)

Showing the 't' values with regard to Gottschallit's test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 178

Table-XXVII: (a-8)

Showing the 't' values with regard to Trist-Hargraves test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. ............ 179

Table-XXVII: (a-9)

Showing the 't' values with regard to Lovell's Concept formation test scores while picking up highs (14 cases) from each age group ranging from 14 - 19 years. .......... 180

Table-XXVII: (b-1)

Showing the 't' values with regard to Lovell's Concept formation test scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. .......... 181

Table-XXVII: (b-2)

Showing the 't' values with regard to Aligarh V.I.T. scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. .......... 182

Table-XXVII: (b-3)

Showing the 't' values with regard to Vernon's Drawing Pattern Test scores while picking up lows (14 cases) from each age group ranging from 14 to 19 years. .......... 183

Table-XXVII: (b-4)

Showing the 't' values with regard to
Gottschaldt's Test Scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. ........... 184

Table-XXVII: (b-5)

Showing the 't' values with regard to Vernon's Graded Arithmetic-Mathematics Test Scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. 185

Table-XXVII: (b-6)

Showing the 't' values with regard to Vernon's Pattern Reproduction Test Scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years... 186

Table-XXVII: (b-7)

Showing the 't' values with regard to Raven's Progressive Matrices Test Scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. ... 187

Table-XXVII: (b-8)

Showing the 't' values with regard to Vernon's Non-Verbal 'g' test scores while picking up lows (14 cases) from each age group ranging from 14 - 19 years. .... 188

Table-XXVII: (b-9)

Showing the 't' values with regard to Trist-Hargraves Concept-formation test scores while picking up lows (14 cases) from each age groups ranging from 14 - 19 years. ........ 189

Table-XXVII: (b-10)

Showing the 't' values with regard to 9 ability test scores while picking up high (39 cases) and low (39 cases) from each sex & locality groups ............. 216 b

Table-XXVII: (c-l)

Showing the 't' values with regard to Vernon's Non-Verbal 'g' test scores while picking up highs 10 cases from each occupational training courses at the college level. 190
Table-XXVII: (c-2)

Showing the 't' values with regard to Vernon's Pattern Reproduction Test Scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  191

Table-XXVII: (c-3)

Showing the 't' values with regard to Ray-Chowdhury's G.K. (Artistic Category) Scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  192

Table-XXVII: (c-4)

Showing the 't' values with regard to Ray-Chowdhury's B category of G.K. Test Scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  193

Table-XXVII: (c-5)

Showing the 't' values with regard to Ray-Chowdhury's (Constructional) category test scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  195

Table-XXVII: (c-6)

Showing the 't' values with regard to Ray-Chowdhury's (Gregarious) test scores while picking up highs 10 cases from each occupational training course at the college level.  ....  196

Table-XXVII: (c-7)

Showing the 't' values with regard to Ray-Chowdhury's (Handicraft) test scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  197

Table-XXVII: (c-8)

Showing the 't' values with regard to 'L' category of G.K. scores while picking up highs 10 cases from each occupational training course at the college level.  ..........  198
Table-XXVII: (c-9)

Showing the 't' values with regard to Ray-Chowdhury's (Mechanical) test scores while picking up highs 10 cases from each occupational training course at the college level. 

Table-XXVII: (c-10)

Showing the 't' values with regard to Ray-Chowdhury's (Outdoor and Physical Activity) test scores while picking up highs 10 cases from each occupational training course at the college level.

Table-XXVII: (c-11)

Showing the 't' values with regard to Ray/Chowdhury's (Scientific) test score while picking up highs 10 cases from each occupational training course at the college level.

Table-XXVII: (c-12)

Showing the 't' values with regard to Ray-Chowdhury's (Theoretical & Musical) test scores while picking up highs 10 cases from each occupational training course at the college level.

Table-XXVII: (c-13)

Showing the 't' values with regard to Ray-Chowdhury's (Welfare and Humanitarian) test scores while picking up highs 10 cases from each occupational training course at the college level.

Table-XXVII: (d-1)

Showing the 't' values with regard to Vernon's Non-Verbal 'g' test scores while picking up lows 10 cases from each occupational training course at the college level.

Table-XXVII: (d-2)

Showing the 't' values with regard to Vernon's Pattern Reproduction test scores while picking up lows 10 cases from each occupational training course at the college level.
Table-XXVII: (d-3)

Showing the 't' values with regard to 'A' Category of G.K. Test scores while picking up lows 10 cases from each occupational training course at the college level. ... 206

Table-XXVII: (d-4)

Showing the 't' values with regard to 'B' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 207

Table-XXVII: (d-5)

Showing the 't' values with regard to 'C' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 208

Table-XXVII: (d-6)

Showing the 't' values with regard to 'D' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 209

Table-XXVII: (d-7)

Showing the 't' values with regard to 'E' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 210

Table-XXVII: (d-8)

Showing the 't' values with regard to 'F' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 211

Table-XXVII: (d-9)

Showing the 't' values with regard to 'G' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 212

Table-XXVII: (d-10)

Showing the 't' values with regard to 'H' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 213
Table-XXVII: (d-11)

Showing the 't' values with regard to 'S' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 214

Table-XXVII: (d-12)

Showing the 't' values with regard to 'T' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 215

Table-XXVII: (d-13)

Showing the 't' values with regard to 'W' Category of G.K. Test Scores while picking up lows 10 cases from each occupational training course at the college level. ... 216

Table-XXVII: (d-14)

Showing the 't' values with regard to nine ability test scores while picking-up High (39 cases) and Low (39 cases) from each Sex and Locality groups. ... 216 b.
