ACKNOWLEDGEMENTS

The author has no words to express his deep sense of gratitude to his mentor, Dr. K.C. Tiwari, Reader, Department of Geology under whose guidance the present study has been carried out. The pursued study would have been possible one and only, because of his supervision, instant help, brotherly affection and constant encouragement that remained the driving force for the author to complete the undertaken endeavour. The last five years of association with him, has enriched author's wisdom not only in geological aspects, but also in all walks of life.

The author remains thankful to Prof. M.P. Patel, Head, Department of Geology for providing the necessary facilities during the progress of this work.

The author remain beholden to Prof. S.J. Desai (ex. Head), Prof. N.M. Vashi (Retd.), Prof. N.D. Desai and Dr. S. Ganapathi who, besides their motivation, harboured the author during the turbulent and rough days.

The concern, encouragement and timely help extended by Dr. A.V. Joshi and Dr. M.A. Limaye remained a boost for the author from time to time. The technical discussions with Dr. A.V. Joshi enabled the author to solve some of the intricacies, for which the author remain thankful.

Dr. V.S. Raghunathan and Dr. T.R. Mahalingam, Scientists, Indira Gandhi Centre for Atomic Research (IGCAR), Kalpakkam are acknowledged for their help in ICP and EPMA analyses.

Shri. S. Illengovan, Deputy director, Highway Research Station, Madras is highly appreciated for allowing the author to pursue the geotechnical studies at the institute and subsequent discussions.

The benevolent help extended by Dr. R.K. Talwar and Dr. Avnish Kumar, ONGC Ltd., Baroda for geochemical analyses is highly acknowledged. Shri. G.D. Sarkar, Shri. A.B. Thakore, ONGC Ltd., are also appreciated for their constant encouragement.
The author thanks Dr G.N. Jadav, Department of Earth Sciences, IIT, Bombay, Dr. P. B. Joshi, Dept. of Metallurgy, Engg. and Technology, M.S. University, Dr. Pulok Mukerjee, Wadia Institute of Himalayan Geology, Dehradun for their help in XRD analyses.

Dr. R.V. Karanth, Dr. B.S. Deota, Dr. N. Sharma, Dr. N.P. Bhatt, Department of Geology, M S. University, Baroda are highly appreciated for their incitement from time to time.

The exhilaration and help extended by my fellow colleagues viz. Dr. K. Gangadhar, Dr. P. Majumdar, Shri. J. Naur, Shri. C. Srikarn, Dr. V. Sridhar, Dr. A.H. Dholakia, Shri M. Mamani, Shri. George Mathew is highly appreciated.

The author is thankful to Shri C.P. Mistry and K. Christian for rendering their help in the final stages. The entire office staffs of the department are whole heartedly appreciated for their help and cooperation.

Shri. R. Karunakaran, Dept. of Biochemistry deserves a special mention here, for his help and encouragement during the moments of despair.

The financial assistance extended in the form of research fellowship by D.S.T (vide project No ESS/044/012.90.) and C.S.I.R, New Delhi are gratefully acknowledged.

The care taken for giving finishing touch to the thesis by Shri. Manjit Banga, Midea Point Computer Services, is highly appreciated.

The author will fail in his duties if, he fails to thank Smt. Gayathri Tiwari, Shri. Kunal Tiwari and Kum. Namrata Tiwari for their affection and care that soothened the agonies of the author.

No words can express the author's gratitude to his parents, whose blessings are pivotal in author's progress.

The author owes great extent to his sisters Smt. D. Gayathri, Smt. D. Chitra; brother Shri. D. Narayanan; and brother-in-law Shri. N.K. Narayanan, the sacrifices of whom elevated the author to the present stage.
