Acknowledgements

Primarily, I would like to express my profound gratitude to Dr. (Mrs.) Uma V. Chudasama, Professor, Applied Chemistry Department, Faculty of Technology and Engineering, The M. S. University of Baroda, who constantly encouraged, inspired and guided me right from the beginning of this work.

I am thankful to the University Grants Commission for providing me JRF for the period July 2001 to June 2004.

I wish to express my gratitude to The Dean, Faculty of Technology and Engineering and to The Head, Department of Applied Chemistry for providing me all the required facilities to carry out my research work.

I convey my heartfelt thanks to Dr. A. R. Kulkarni and his research group, Department of Metallurgy, IIT Powai for providing me the facilities to carry out the impedance measurement.

I also wish to express my gratitude to Dr. S. K. Shukla, Director, Hydro Chem India Pvt. Ltd., Vadodara, for his kind co-operation and support during the course of my research work.

My special thanks to Dr. Shobhana Menon, Department of Chemistry, Gujarat University, for carrying out thermal analysis.

I am deeply thankful to my research colleagues Ms. Kalpana Maheria, Amit Jayswal, Rikesh Joshi, Rakesh Thakkar and Parimal Patel for all the help rendered to me in each and every step of my work right from literature survey to compilation of the thesis. I also gratefully acknowledge the keen interest they took in my work and the useful suggestions they gave me at various stages of my research work.
I extend my sincere thanks to all the teaching staff members who have helped me in many ways during my research work. Thanks are also due to Sushil Chaudhari, Nilesh Bonde and to all my fellow research mates who maintained a cordial and supportive environment during the research period. I cannot forget the cooperation extended to me by the non-teaching staff members of the department.

The support extended to me by my "father, mother and wife" has been the most instrumental in the accomplishment of this task. Last but not the least I would like to record my gratitude to my sister "SHEETAL", who made many sacrifices to help me in reaching at the platform where I am today.

There were so many people who did so many things to help me out at critical times. In this short space, it is just impossible to acknowledge all of them individually. I thank all of you, my friends and colleagues, who have been always with me, in times of need.

(Heemanshubhai K. Patel)
