I hereby declare that the thesis 'The Influence of English on Gujarati Poetry' is my original work, based on the facts observed by me and on a new relationship of facts gathered and organized by me from original source-material.

I submit that the results of my research embodied in this thesis and the conclusions arrived at by me tend to the advancement of knowledge regarding an important aspect of literature, namely, the impact of one literature on another, the impact of English poetry, for instance, on Gujarati poetry.

I have received generous guidance initially from Prof. C.M. Shukla and subsequently from Prof. V. Y. Kantak, for which I am very grateful.

U.M. Maniar
