Frustration Study Tool (First Draft)

Name of the teacher : __________________________ Status : ________
Name of School/College : __________________________ Date : ________

Instructions: Every individual passes through such situations in which his actions, thoughts or other activities are blocked or obstructed. These obstructions may be physical, social or psychological. The state of mind of the individual in such situations is called frustration. Different people respond differently in same situations.

In this schedule there is a list of certain such situations with six expected reactions. There is also a continuum, having four points, for each reaction, inscribed as 'Always', 'Often', 'Sometimes', and 'Rare'. You have to imagine that you are facing such situations at so many times in your college life then what will be your reactions. You are requested to give your reactions, by selecting one reaction only from given six expected reactions, according to your will. You have to show your reaction by making a tick mark (✓) against the chosen reaction and under the column which is suitable for you. For your convenience one example is given here.

(Situation -

GUIDE : INVESTIGATOR :
Dr(Miss) M.M. Shah Virendra Pratap Singh
Professor in Education (Teacher Fellow)

Centre of Advanced Study in Education
M. S. University, Baroda
Gujarat - 390 002
Suppose you are facing the above situation at so many times you scold the students always then make a tick mark (_/) against the reaction Number (a) and under the column 'Always'. If you scold them often, then make a tick mark under the column 'Often'. If sometimes then under the column 'Sometimes' and if you scold them rare then make the tick mark under the column 'Rare'. In the same way if your reaction is (b) or (c) or (d) or (e) or (f) then you have to make the tick mark against (b) or (c) or (d) or (e) or (f) accordingly and under one of the columns as explained earlier. You are free to choose any one of the reactions and columns as you like. Please keep in mind that for one situation there must be only one tick mark against any one of the reactions and under any one of the columns and you have to attempt all the situations. If you want to give your own reaction you can give at 7th place (Any other) and make tick mark as explained.

This information is collected for research purpose in which your best co-operation is expected. None of the reactions are right or wrong. Therefore, please select your reactions freely without reservations. Your answers will be treated as most confidential. There is also no time limit, even then do the work as fast as you can and select your reactions which come at first in your mind without taking help of your colleagues.
