ACKNOWLEDGEMENT

Words fail me in expressing my deep sense of gratitude and indebtedness to Professor Y.K. Agrawal, Pharmacy Department, Faculty of Technology and Engineering, M.S. University of Baroda for suggesting the research problem, valuable guidance, keen interest, continuous help, persistent encouragement and fruitful discussion during the entire phase of this investigation.

The author is highly indebted to Prof. S.C. Bhattacharyya, Director, Bose Institute, Calcutta for his valuable suggestions, very stimulating and useful discussion.

I take this opportunity to express my grateful thanks to Prof. O.H. Patel, Dean, Faculty of Technology and Engineering, Prof. A.M. Talati, Head, Applied Chemistry Department, and Prof. S.K. Banerjee, Head, Pharmacy Department, Faculty of Technology and Engineering, M.S. University of Baroda, for providing necessary facilities to carry out this research project.
I am grateful to Prof. S.S. Merh, Dean, Faculty of Science, for his render help and constant encouragement throughout this work.

My sincere thanks to Dr. V.A. Kamath, Library and information Division, B.A.R.C., Bombay, for providing necessary library facilities.

I am highly indebted to my parents and family members for their constant encouragement and inspiration throughout the course of this investigation.

I also wish to extend my sincere thanks and appreciation to all my colleagues and friends of the Analytical Laboratory, Pharmacy Department and Applied Chemistry Department for their generous help and cooperation during the various phases of the thesis.

R. K. Jain
