Medical Representative Questionnaire

Effect of Generic Drugs on the buying behaviour pattern and brand sustainability of Ethical Drugs in Western India

Dear Respondents,

I am undergoing this study for my Doctoral Degree in Management. To serve the purpose, I have designed this questionnaire. It would be kind on your part, if you acknowledge gracefully your cooperation in answering the questionnaire.

I assure you that this information is gathered purely for academic purpose.

Thanking You.

Preshth Bhardwaj
Ph.D.Scholar,
Faculty of Management Studies,
M. S. University, Baroda (Gujarat).
Assumptions:

1. Most drug manufacturers prefer to promote generic medicines/ brands with higher margins.

2. Insist the local physician/ general practitioners to prescribe medicine brands by offering lucrative financial incentive.

3. Promotional schemes for the branded medicines or equivalent generic versions depends on the predicted Sales Volumes of the medicine(s) and proposed trade margins.

4. Normally look for Medical Stores and Consulting doctor’s chamber in a densely populated area/ commercial area to promote their leading medicine brands/ generic versions.

5. Selection of drugs to be promoted is mainly guided by the specialities of the physician(s) practicing and looking at their prescription slip.

6. Free Samples in modest quantity is offered to the doctor’s to insist them for prescribe their medicine brands.

7. Promotion of generic version for a formulation to a doctor/ retail pharmacist is based on the market price of substitute generic versions and the stage of patents of branded drugs of the same formulations.

8. Cost of treatment of a patient is among the major factor that contributes to more of generic drug sales than the ethical drugs of the same formulations.

9. Major players are Family run business (Corporate Houses) and others are mostly the small-to-medium size manufacturers.

10. Margins, trade cycles, payment terms; attributes perceived, pricing patterns, preference set of drugs by the doctors, and prescription patterns are the major factors that manufacturers consider while designing their Promotional Schemes for a particular geographical area or a city.
Medical Representative Questionnaire
