ACKNOWLEDGEMENTS

A major research project like this is never the work of anyone alone. The contributions of many different people, in their different ways, have made this possible. I would like to extend my appreciation especially to the following.

First and foremost, I owe deep debt of gratitude to my research guide Prof. Ch D V Subba Rao, Dept of CSE, S V University College of Engg., Tirupati for giving me an opportunity to work under his continuous guidance, for his support and encouragement throughout this study. His discussions motivated me to acquire the qualities of an independent and confident researcher, something that I never could have learnt from a book. I am extremely fortunate to work with such a high profiled persona. His guidance was the next best thing to knowledge, which I will cherish throughout my life. He is truly a source of inspiration to pursue a research-oriented career.

I would like to express my profound thanks to Prof. K. Lal Kishore, Hon’ble Vice-Chancellor of JNTUA, Anantapur for which I am morally boosted to carry on my research work with more enthusiasm and vigor.

I would like to thank Prof. S. Krishnaiah, Registrar JNTUA Anantapur, Prof. K. Rama Naidu, Director of Evaluation, Prof. S. V. Satyanarayana, Director of R and D and Dr. C. Sashidhar, Controller of Examinations for their encouragement, help and cooperation.
I would like to thank Prof. K. Prahalada Rao, Principal, JNTUACE Anantapur, Prof. A. Ananda Rao, Department of Computer Science and Engineering, Prof. B. Eswara Reddy, Vice Principal, JNTUACE Anantapur, Prof. S. Vasundra, HOD, Department of Computer Science and Engineering, JNTUACE, Anantapuramu.
