LIST OF TABLES

Table 1: Mean fluency scores of stimulus items of CM I... 158
Table 2: Mean fluency scores of stimulus items of CM II... 159
Table 3: Distribution of CM I-figures according to mean fluency scores... 160
Table 4: Distribution of CM II figures according to mean fluency scores... 162
Table 5: The Davis difficulty and discriminating indices for CM I stimulus figures... 169
Table 6: The Davis difficulty and discriminating indices for CM II stimulus figures... 170
Table 7: The Davis difficulty and discriminating indices for CM III stimulus figures... 171
Table 8: The Davis difficulty and discriminating indices for CM IV items... 172
Table 9: Hypothesised factors and scoring procedures for CM I - IV... 183
Table 10: Means and standard deviations of the 16 measures of creativity (CM I - IV and criterion measures) for 230 X Std. children... 195
Table 11: Correlation matrix: showing inter-correlations among 16 creativity measures obtained from a sample of 230 X Std. children... 198-9
Table 12: Strength of the criterion groups and relevant statistics required by Peters formula... 213
Table 13: Factor matrix... 224
Table 14: Criteria for sufficient number of factors... 222
Table 15: Check values... 224
Table 16: Rotated factor matrix... 225
Table 17: Check values based on rotated factors... 226
Table 18: Division of CM I into two halves... 242
