

ACKNOWLEDGEMENT

I am highly indebted to my guide Prof Rachel George, Department of Home Management, Faculty of Home Science, M S. University, Baroda, for her expert and valuable guidance. I express profound gratitude towards my guide for her encouragement, patience and keen interest shown even at the expense of her personal commitments throughout the study without which it would have been an unsuccessful attempt

I am especially grateful to all respondents who participated in this study, whose indispensable co-operation is usually played down in behavioural research by little respectfully calling them "subject".

I shall ever remain thankful to Heads of Personnel department of Indian Petrochemicals Corporation Limited, Alembic, Sarabhai chemicals and Torrent chemicals for their great help and co-operation in collecting relevant data.

Thanks are due to staff members of CERC, IRMA, IIMA, SNTD and Railway staff college libraries for helping me in collecting valuable literature relevant to my research work.
