

ACKNOWLEDGEMENT

This work was conducted in a span of four years and needed help and cooperation from a large number of people from different institutions. It will be impossible to mention all those and hence this attempt is only to acknowledge some of the most important persons.

My Research Guide, Dr. L H H Prasad has always encouraged me and guided the work to the right direction to produce a satisfactory mix of basic and applied research. Prof. T R Joshi, Head of the Applied Physics Department during my work supported and encouraged my work and always had a nice word of appreciation. Dr. K V R Murthy spent many hours, in the Department and outside, to help me plan and execute this work and also to write the thesis. I express my gratitude and sincere thanks to the trio of the Applied Physics Department Dr. L H H Prasad, Dr. T R Joshi and Dr K V R Murthy who helped me the most in this work.

I also wish to thank Dr. V N Potbhare, the present Head of the Department of Applied Physics for his cooperation in conducting this study.

The Board of Management of Sardar Patel Renewable Energy Research Institute, Vallabh Vidyanagar permitted me to undertake a part of the work at the Institute and provided me all necessary facilities. I thank Dr. N B Amin, Chairman; Dr. C S Rao and

Prof. A C Pandya and the other members of the Board of Management for their special interest in this work and continuous support. I also thank Prof. S M Amin, the present Honorary Director of SPRERI for his help and cooperation.

I got valuable and timely help from Indian Petrochemicals Corporation Ltd., Baroda, Oil and Natural Gas Corporation Ltd., Baroda and Gujarat Industrial Research and Development Agency, Baroda in executing this work. I thank officials of all these organizations for their valuable help.

I appreciate the help and cooperation I got from my fellow research workers namely, Dr. A K Singhal, Mrs. H N Mistry, Dr. Ram Mohan and Dr. Neera Tessler. My thanks are due to Pragna Dave, Hasmukh Patel and Afroz Sultna Sayed who have helped me in preparing this thesis.

Any research activity consumes a lot of time, energy and attention, obviously affecting family responsibilities. Mine too has been similar. My wife Luba, who doubles as an ONGC Executive, patiently tolerated all that and has been a constant source of encouragement. Many thanks to her for everything.

S K PHILIP
