Contents

Introduction 1-9

Material and Methods 10-20

Chapter 1 Effect of removal of the parasympathetic and sympathoadrenal systems on the body weight, absolute and relative kidney weight and water content of the kidney of rat 21-37

Chapter 2 Vagal and adrenal influences in the regulation of the enzymes of carbohydrate metabolism in rat kidney 38-56

Chapter 3 Vagal and adrenal involvement in the regulation of protein metabolism, transaminases and transport enzymes of rat kidney 57-73

Chapter 4 Sympathoadrenal mediation in the regulation of the enzymes of carbohydrate metabolism of the kidney 74-91

Chapter 5 Sympathoadrenal moderation of protein metabolism, transaminases and transport enzymes in rat kidney 92-105

Chapter 6 Interactions of the autonomic nervous system and the pituitary-adrenocortical axis in the regulation of blood sugar level 106-120

Chapter 7 The autonomic nervous system and growth hormone secretion and their combined effect on blood sugar level 121-132

Summary 133-139

General Consideration 140-151

Bibliography 152-180
