ACKNOWLEDGEMENTS

It gives me great pleasure to acknowledge my sincere gratitude to Dr. V.P. Bhatt, M.Sc., Ph.D., whose encouraging guidance was the constant source of inspiration throughout the course of this work. I take this opportunity to offer my heartfelt thanks and respect to him. I should also like to express my sincere thanks to Prof. N.S. Pandya, M.Sc., Ph.D. (London), for some useful suggestions and discussions and for providing excellent facilities in the laboratory.

I am particularly grateful to Shri A.R. Vyas and Shri Sudhir Trivedi for their immense help and cooperation. Thanks are due to Shri John K. Wessly, Shri R.T. Shah, Shri K.L. Patel, Miss M.D. Trivedi and other research associates for their help. Thanks are also due to the staff of the Central Workshop of the Faculty of Science for their cooperation.

I am greatly indebted to the Gujarat State Industrial Research Committee for the award of Junior Research fellowship which enabled me to carry out this work.

Girish Pandya
