

## ACKNOWLEDGEMENT

I wish to thank a number of people for their support of and contribution to the effort involved in the completion of this research work. Mostly I owe the reality of this thesis to Dear Dr. R.A.Vora, Professor and Head, Applied Chemistry Department, Faculty of Technology and Engineering, M.S.University, Baroda, whose cordial and creative guidance as well as constant encouragement at every stage of work have put this final form, the content of my research. I record with pleasure his stimulant contributions and perfect directions during the entire course of investigation.

I am thankful to present and past Dean of the faculty and also to late Prof. J.M.Lohar for providing adequate research facilities. My search of finding a suitable Guide in Environmental Science ended with the help of Prof. A.N.Shah (Faculty of Technology & Engineering). I thank Prof. Y.K.Agrawal (Dept. of Pharmacy) for his keen interest in my work.

I am indebted to the Authorities of Gujarat Pollution Control Board for granting me permission for the research work. I can not forget the help rendered by the staff members of my Regional Office, Baroda, at different stages of the work.

I am very much thankful to the authorities of Gujarat State Fertilizers Co. Ltd., Baroda, especially Mr. V.A.Sanghani (Director), Mr. M.D.Patel and Dr. M.H.Mehta, who helped me by supplying the Waste Liquor-I and other materials of G.S.F.C. used in the present work.

I thank The Narmada Valley Chemical Industries Pvt. Ltd., Rajpipla and Industrial Carbons Pvt. Ltd., Ankaleshwar, for the supply of activated carbon.

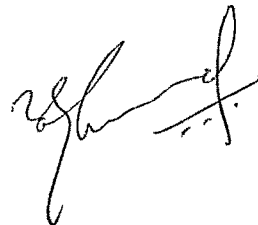

I also thank The Bombay Oil Industries Pvt. Ltd., Bombay for the supply of Cationic surfactants.
