ACKNOWLEDGEMENT

I owe this opportunity to express my heartfelt gratitude and deep regard to my guide Prof. Pallavi Mehta, Head, Department of Foods and Nutrition for her valuable guidance throughout my entire journey of this study. Her constant support, tireless patience, understanding and making me remind that “nothing is impossible if you believe in yourself, you can succeed”. has made me stronger in the tough times of my life. Without her insight, constructive criticism and scientific knowledge of the subject, this work would have not been possible.

My sincere thanks to former Dean, Prof. Prerna Mohite and Present Offg Dean, Prof Uma Joshi, Faculty of family and community Sciences for providing all the required facilities for carrying out this research.

I would like to extend my sincere thanks and regard to Dr. Komal Chauhan, Sr. Lecturer, Department of Foods and Nutrition, for her valuable support, encouragement during my crucial times throughout the course of my study.

I sincerely thank honorable trustees of Nirman Foundation, USA for funding my research work through a project: ”Mental health and Aging”. I am also grateful to Prof. Parul Dave, Ex. Director, Women’s Studies Research Centre(WSRC), for her kind support and guidance to carry out part of my research work I must also express my appreciation to the project staff Mrs. Purnima Khanna, Ritaben, Bhavisha and Vijayta for providing help and support.

Acknowledgements are gratefully extended to Dr. Bhargav Patel for providing the laboratory facilities and assisting me. I would also like to acknowledge Mr. Punjan, Director of M/S Softhealth Pharmaceutical for providing supplements for intervention of my study.

I convey my sincere respect to all my subjects that I interviewed during the course of my research. Without their time, cooperation, willingness, this research would have not been possible.
My sincere thanks to Ms. Arpita Shah, who was part of our research team during her master's program, for her assistance in my filed work. Deserving thanks are due to my friends Meghana, Shital and Nirali from geriatric team members for their suggestions and support throughout the study.

I would also like to express my gratitude and appreciation to all the teaching and non-teaching staff members of the department for their motivation and encouragement during my study.

I am speechless when it comes to expressing my gratitude to my parents their love, blessings, endless motivation and warmth given to me in my tough times throughout the study. A heartfelt gratitude to my in-laws, sister's family, Archie and Soham for providing moral support and love

This thesis would not have been possible without the support of my husband Bhairav, who's never ending patience, cooperation and understanding helped me getting over the stressful time. A special word of thanks to Param my little darling son who is unaware about the kind of help rendered to me during my demanding times. He has always been cheerful, loving and cooperated throughout my research period.

Last but not the least, I pay deep respect and reverence to ALMIGHTY ("Saibaba and Mataji") for making me see the light of this day and successful completion of my research work.

Tejal Vasavda
