List of the Tables

Chapter-2
Table 2.1 Thickness of pure polymer and polymer composites 48
Table 2.2 Irradiation details of the samples 56

Chapter-3
Table 3.1 FWHM, crystallite size and % crystallinity of pristine and irradiated PMMA/Al composites for 10% and 40% concentrations of filler 122
Table 3.2 FWHM, crystallite size and % crystallinity of pristine and irradiated Cu/PMMA composites for 10% and 40% concentration of filler 141

Chapter-4
Table 4.1 FWHM, crystallite size and % crystallinity of pristine and irradiated PVC/Al composites for 10% and 40% concentrations of filler 187

Chapter-5
Table 5.1 Direct and indirect band gap values for pristine and irradiated PP+TiO2 composites 221
Table 5.2 FWHM, crystallite size and crystallinity of pristine and irradiated polypropylene/TiO2 composites 223
Table 5.3 Direct and indirect band gap values for pristine and irradiated PP+GF composites 232
Table 5.4 Band gap, degree of crystallinity (K) and crystalline size for HDPE/CB composites 242
