Acknowledgement

I am greatly indebted to my Guide/ Supervising Teacher, Dr. M. Kumaran, Associate Professor, Department of Statistics and Principal, Nehru Arts & Science College, Kanhangad for his constructive criticism, scholarly guidance, generous help and valuable suggestions. I warmly thank him for his patience, vision and vividness. I owe a large share of gratitude to him for the constant encouragement that I received through out the preparation of this thesis, without which this thesis would not have been materialized.

I am equally indebted to Dr. Sr. K. A. Germina, Associate Professor and Research Guide, Mathematics Research Centre, Mary Matha Arts & Science College, Mananthavady, who gave a direction to my research work. Without her, I would not have thought of completing my thesis work in such an interdisciplinary area. I thank her profoundly for her constant support and valuable suggestions rendered to me through out the course of this research work.

I express my deep sense of gratitude to the research scholars in the
Mathematics Research Centre, Mary Matha Arts & Science College, Mananthavady, especially, to Dr. Sr.Ancy Tom, Ms. Jisha Elizabeth Joy, Ms.Beena Koshy and Dr. Kumar Abhishek, for helping me with Latex and Graph Theory and also for encouragement showered to me at various stages of the research.

I am grateful to my colleague Mr. Bibin Jose, Department of Computer Science, Mary Matha Arts & Science College, Mananthavady for helping me in down loading the R packages and to Mr. Deepu Benson, a M.Tech. graduate and my cousin in helping me with the C++ program used in the thesis.

I express my deep felt gratitude to the Principal, Management and Staff of Mary Matha Arts & Science College, Mananthavady and also to the Principal, Management and Research Scholars of the Department of Statistics, Nehru Arts & Science College, Kanhangad.

Mananthavady Geetha Antony Pullen
