Chapter 10
Bibliography

CHAPTER 1

[11]. Wajiha Shireen, Li Tao and M S Arefeen: Implementation of a dsp based active power filter for electric power distribution systems supplying nonlinear loads
[12]. G. Capwell: Interfacing external memory to the TMS320C5x DSK, Designer’s Notebook, Texas Instruments, No 65, 10/1995
[13]. MATLAB® R13/R14: DOCUMENTATION CD The Mathworks Inc.
[17]. Website: WWW.MATHWORKS.COM
[19]. eccslink (MATLAB link for CCSv3.0 DSP) The Mathworks Inc.
[20]. C6711 DSP Starter Kit (DSK)- TMDS320006711 Texas Instruments.
[21]. SIGNALWARE AED-102 Multi-Channel Process Control Analog Expansion Daughterboard
Chapter 2

K. H. Yiauw and M. S. Khanniche

[52]. Hideaki Fujita, Member, IEEE, and Hirofumi Akagi, Fellow, IEEE: "The Unified Power Quality Conditioner: The Integration of Series Active Filters and Shunt Active Filters" 0-7803-3500-7/96 1996 IEEE 494-501

[65].Micah Ortuzar, Rodrigo Carmi, Juan Dixon Luis Morán: “Voltage Source Active Power Filter, Based on Multi-Stage Converter and Ultracapacitor DC-Link.” 0-7803-7906-3/03 ©2003 IEEE.pp 2300-2305

Chapter 3

[26] K. Sożański, R. Strzelecki, Aplikacyjny uk ̌ad sterowania filtrem hybrydowym z zastosowaniem procesora sygnałowego, Sterowanie w Energoelektronice i Napędzie Elektrycznym, Politechnika Łódzka, Łódź, 1995 (in Polish).- Translated

[29] D. Rivas, L. Moran, J. Dixon and J. Espinoza “A simple control scheme Filter for hybrid active power” IEE No 4, Z(X)2 pp 485-490-Translated

[32]. MORAN, L., IIIXON, I., and WALLACE, R.: 'A three-phase active power filler operating with fixed switching frequency for reactive power and current harmonic compensation'. IEEE, 1996. 42.4, pp. 402408

[63] Luis Mori, Juan Dixon, Sergio Muller, Rogel Wallace: "An active power filter implemented with PWM voltage-source inverters in cascade" IEEE pp108-113,2002

Chapter 4

Chapter 5-7

- MATLAB® R13/R14: DOCUMENTATION CD
- Using MATLAB7: User Guide
- Using SIMULINK5: User Guide
- Creating Graphical User Interfaces (Version 6)
- Website: WWW.MATHWORKS.COM
- Code Composer Studio v3.0 for TMDS32006X Series of DSP Processors.
- ccslink (MATLAB link for CCSv3.0 DSP)
- C6711 DSP Starter Kit (DSK)- TMDS32006711
- SIGNALWARE AED-102 Multi-Channel Process Control Analog Expansion Daughterboard
- 5k--6K Interface Board EVM
- TVL2553/56 EVM Board for TMDS32006X DSP processors.
- TLV5614-10-30 EVM module for DSP processors.
