- List of Tables: ix
- Abbreviations and Notations: xi

## 0 Introduction

- 0.1 Motivation: 2
- 0.2 Multisets and its Fuzzifications: 2
  - 0.2.1 Multisets: 2
  - 0.2.2 Fuzzy Multisets: 3
  - 0.2.3 L-multi-fuzzy Sets: 4
  - 0.2.4 General Multi-fuzzy Sets: 6
  - 0.2.5 Blizard’s Multi-fuzzy Sets: 6
- 0.3 Outline of the Thesis: 7

## 1 Preliminaries

- 1.1 Fuzzy Sets: 11
  - 1.1.1 Zadeh’s Extension of Functions: 13
- 1.2 Lattices and Lattice Valued Mappings: 14
  - 1.2.1 Operations on Lattices: 16
  - 1.2.2 L-fuzzy Sets: 19
- 1.3 Intuitionistic Fuzzy Sets: 20
- 1.4 Fuzzy Topology: 21
- 1.5 Fuzzy Algebra: 23
  - 1.5.1 Fuzzy Subgroups: 23
  - 1.5.2 Lattice Valued Lattices: 24
- 1.6 Fuzzy Logic: 25
1.6.1 Basic Logic ........................................ 26
1.6.2 Łukasiewicz Logic .................................. 27
1.6.3 Gödel Logic .......................................... 27
1.6.4 Product Logic ........................................ 28
1.6.5 Algebras of Logic ..................................... 28
1.7 Rough Sets ............................................. 30

2 Strong L-fuzzy Lattices .................................. 32
  2.1 Introduction .......................................... 32
  2.2 Fuzzy Semilattices .................................... 33
  2.3 Strong Fuzzy Lattices .................................. 41

3 Multi-fuzzy Sets ........................................ 50
  3.1 Multi-fuzzy Sets ........................................ 50
  3.2 Properties of Multi-fuzzy Sets ....................... 54
  3.3 Multi-fuzzy Extensions of Functions ................. 57
  3.4 Bridge Functions ...................................... 59
    3.4.1 Extension Based on Order Homomorphisms ....... 62
    3.4.2 Extensions Based on Lattice Valued Fuzzy Lattices 68
    3.4.3 Extensions Based on Lattice Homomorphisms ....... 76
  3.5 T, S and M Operations ................................ 76
    3.5.1 p-conjugate ....................................... 79
  3.6 p-complements ....................................... 80
  3.7 Relation Between IFS and MFS Operations .......... 90
  3.8 Mappings on Multi-fuzzy Spaces ..................... 93

4 Multi-fuzzy Topology ................................... 98
  4.1 Introduction .......................................... 98
  4.2 Basic Notions of Multi-fuzzy Topology ............... 98
  4.3 Multi-fuzzy Continuity ................................ 99
  4.4 Multi-fuzzy Compactness ................................ 103

5 Multi-fuzzy Subgroups ................................ 105
  5.1 Introduction .......................................... 105
  5.2 Multi-fuzzy Subgroups ................................ 106
  5.3 Normal Multi-fuzzy Subgroups ....................... 109

6 Multi-fuzzy Logic ..................................... 113
  6.1 Introduction .......................................... 113
  6.2 Multi-fuzzy Logic ..................................... 114
  6.3 Deductive Systems of Residuated Lattices .......... 121
    6.3.1 Filters of Residuated Lattices .................. 122
    6.3.2 Fuzzy Filter ..................................... 123
