ACKNOWLEDGEMENTS

I am grateful to all those who were instrumental in my pursuing this research work and successfully completing it.

I express my heartfelt thanks to Dr. R. Perumalsamy, Member, Tamil Nadu Public Service Commission (formerly Principal, Thiruvalluvar College, Papanasam), for motivating and encouraging me to pursue this research work. I thank Dr. N. Sasidaran Nair, our Principal, for being a constant source of support and for permitting me to carry out this research work.

I express my sincere gratitude to Dr. P. Alphonse Rajendran, Professor and Head (Retired), Department of Mathematics, Aditanar College, Tiruchendur for supervising the research work, scrutinizing the research module and being a constant source of encouragement. His prompt and timely guidance helped me greatly to complete this research work. I find no words to express my indebtedness to him for consistently inspiring me and spending a great deal of his valuable time on this work. I express my gratitude to his wife and children for their hospitality during the discussion of this research work at their home.

I whole-heartedly acknowledge my profound sense of gratitude to Dr. V. S. Sampath Kumar, Professor and Head, Department of Statistics, Manonmaniam Sundaranar University, Tirunelveli, my co-guide for his invaluable and inspiring guidance. He has rendered immense help at every stage of the research work and in shaping the thesis. I deem it a privilege to thank him for his valuable ideas, suggestions and deep insights. I express my gratitude to Mrs. Sampath Kumar for her hospitality during the discussion of this research work at their home.

I am happy to place on record my special thanks to my wife Dr. S. Thamarai Selvi, Professor, Department of Information Technology, Madras Institute of Technology, Anna University, M.I.T. Campus, Chromepet, Chennai - 600 044 for the hours she spent with me in conceiving certain concepts and for critically analyzing the results obtained by the proposed algorithms in the thesis. This project would never have been completed but for the extensive guidance she offered me.

I would like to express my heartfelt thanks to Dr. Heidemarie Brasel and her colleagues Dr. Martin Harborth, Dr. Thomas Tautenhan, and Dr. Per Willenius,
Department of Mathematics, Institute for Algebra and Geometry, Otto-van-Guericke-University Magdeburg, Magdeburg, Germany for providing me their LiSA software. They have developed the software, called LiSA (Library of Scheduling Algorithms), to test all types of scheduling problems using different standard scheduling algorithms. Without this software the testing of all the benchmark problems in this thesis would not be possible.

I express my special thanks to Dr. R. Panneerselvam, Professor, School of Management, Pondicherry University, Pondicherry for his valuable motivation, suggestion and guidance for doing research in this area.

Special thanks are addressed to Dr. S. Thillainayagam, Professor, Department of English, Manonmaniam Sundaranar University, Tirunelveli for making corrections in the entire thesis.

I express my heartfelt thanks to Dr. S. Somasundaram, Department of Mathematics, Manonmaniam Sundaranar University, Tirunelveli and Mr. M Vishnu Manikumar, University of Texas, USA for the help extended to me towards the collection of research papers.

I express my sincere thanks to Thiru. S. Radhakrishnan, M.Sc., M.Phil., Thiru. M. Murugalingam, M.Sc., B.Ed., M.Phil., PGDCA, Tmt. S. Palaniammal, M.Sc., B.Ed., M.Phil., PGDCA and Tmt. U. Vijayalakshmi, M.Sc., M.Phil., PGDCA, Department of Mathematics, Thiruvalluvar College, Papanasam for the constant encouragement and support extended to me. I also express my gratitude to all the staff members of our college who helped me directly or indirectly in completing this research.

I also thank Dr. S. Arumugam, Professor and Head, Dr. P. Thathabai Nowroji, Dr. T. Tamizhvelan, Dr. J. Paulraj Joseph and Dr. R. Kala, Department of Mathematics, Manonmaniam Sundaranar University, Tirunelveli for their valuable suggestions.

Most important of all I thank my parents and daughters M. Poorani and M. Brindha for their patience, love and concern.

Above all I must thank the Almighty without whose grace I could have achieved nothing.
