

## LIST OF TABLES

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
II.1	Intensity of rainfall (1931-'60)	37
II.2	Rain factor indices	39
II.3	Relative humidity in percentage	45
II.4	The range of variation of temperature efficiency indices	47
II.5	Monthly indices of temperature efficiency	50
III.1	Frequency distribution of area under irrigation	60
III.2	Frequency distribution of indices of concentration	68
III.3	Area under HYV of rice in thousand hectares	78
III.4	Productivity of recommended varieties of rice	80
III.5	Yield of HYV rice in Kg. per hectare	81
III.6	Yields of HYV and local rice(1969-70 to 1971-72)obtained from sample farm study	83
III.7	Yield of HYV and local rice (1968-69) obtained from sample farm study	84
III.8	Average yield of paddy in sample households(1968-69)	85
IV.1	Frequency distribution of the composite indices of soil nutrients	106
IV.2	Frequency distribution of the percentage of light soil samples	110
IV.3	Frequency distribution of the percentage of loam and sandy loam soil samples	112
IV.4	Frequency distribution of the composite indices of soil texture	114
