THEORY I

The Irrigation/Hydraulic/Managerial Theory (see pages 20-21)
THOERY II
The Synthetic Theory (see pages 20-21)

The diagram shows the relationship between war leaders, war leaders, and increased craft production. Other activities such as herding, collecting, hydraulic agriculture, and re-distributional institutions are also depicted. The state is ultimately linked to wealth concentration and land purchase through managerial officials.
THEORY III
The Internal Conflict Theory (see pages 20-21)
THEORY IV

The External Conflict Theory (see pages 20-21)
