ACKNOWLEDGEMENT

The author is grateful to Dr.S.Rajasekar for his scientific guidance and for stimulating discussions during the entire course of this work. He wishes to express his sincere thanks to Professor G.Shanmugam, for his constant encouragement throughout his research period.

He expresses his gratitude to Dr.M.Senthilvelan for stimulating discussion on Lie symmetries. It is a great pleasure to thank Mr.M.C.Valsakumar and Dr.K.Murali for their role in the collaborative work. He also expresses his sincere thanks to Mr.A.Venkatesan and Mr.P.Muruganandam for their useful discussion.

He wishes to express his sincere thanks to Rev.Frs. G.A. Savariraj S.J., A.Albert Muthumalai S.J., M.Sebastian S.J., G.A.Packiaraj S.J. and Francis Jayapathy S.J. for their moral and human support and constant encouragement throughout his research period. Thanks are due to Prof.S.A.Thiaga Rajan who read the manuscript and suggested useful modifications.

The author extends his sincere appreciation to his wife Jeni and his family members for constant support and encouragement during this period.

He would like to thank the University Grants Commission, India for providing a Faculty Improvement Programme fellowship which has enabled him to complete this thesis.
