Acknowledgement

I yearn to depict my unfathomed indebtedness and fervent thanks to my beloved guide Dr. A.G. Murugesan, Senior Lecturer, Manonmaniam Sundaranar University, Sri Paramakalyani Centre for Environmental Sciences, Alwarkuruchi for suggesting this topic for my research, for his adroit suggestions, unflinched encouragement and tacit serenity. He entwined my pearls of work, nourished my knowledge with his own librarial collections, emanating fragrances of perseverance which helped me to finish this project in a successful manner.

I covet to contribute my earnest thanks to Dr. N. Sukumaran, Professor and Head, Manonmaniam Sundaranar University, Sri Paramakalyani Centre for Environmental Sciences, Alwarkuruchi for his expert counsel and unfailing help in providing the laboratory facilities.

I feel a great sense of gratitude to Dr. M. Mariappan, Former Vice Chancellor, Bharathidasan University, Trichy and Director grade scientist, Environmental Engineering Lab, Centre for Leather Research Institute, CLRI Chennai for having introduced me to the fascinating field of anaerobic treatment. I regard myself extremely lucky enough to get an opportunity to study the concepts of anaerobic treatment under his patronage.

I feel a great sense of gratitude to Thiru. Surjit K. Chowdhary, I.A.S. Secretary to Government of Environment and Chairman, Tamilnadu Pollution Control Board, Chennai.
I am thankful to Tmt. Sheela Rani Chunkath, IAS, Secretary to Government, Health and Family welfare Department and Former Chairperson, Tamilnadu Pollution Control Board, Chennai for her sagacious help, surpassing guidance and magnanimous support and to Tmt. Girija Vaidyanathan, I.A.S Secretary to Government, Department of school education. and Former Chairperson, Tamilnadu Pollution Control Board, Chennai for her encouragement for carrying out my doctoral research in Environmental Engineering.

My endless thanks go to Mr. Rengasamy, Former Member Secretary, Tamilnadu Pollution Control Board, Chennai for his timely help for grant of permission to register for Ph.D. degree.

I thank Thiru.K.Sanjeevi, Former Member Secretary, Tamilnadu Pollution Control Board, Chennai who was instrumental for updating of my technical knowledge and for furthering and sharpening of my knowledge.

My sincere thanks are due to Mr. Kalaiselvan, Manager, Tamilnadu Pollution Control Board, Chennai for his helps and support. I thank thiru.T.Elango, Deputy manager, District Environmental Lab, Dindigul for his help and support.

I am thankful to Mr. Ramaswamy, Administrative Manager, M/s Sun Paper Mills Ltd., Mr. Chandrasekaran, Deputy General Manager, M/s Dharani Sugars and Chemicals Ltd., Mr. Mohaideen, Managing Director, Dintec TALCO (P) Ltd., Tannery Association, Dindigul and Mr. Manoharan, General Manager, M/s Sterling Biotech Ltd., Udagamandalam for providing the effluent samples for my experiments.
My sincere thanks goes to Mr. Ashokan, District Environmental Engineer, Tamilnadu Pollution Control Board, Erode and Mr. Selvam, District Environmental Engineer, Salem for their cooperation.

My thanks are due to Mr. S. Jeevanantham and his firm M/s Jeenet Computers, Dindigul for their help in computing the data and to complete the thesis in time.

I bestow my heartfelt thanks to my wife Mrs. A. Mala, Assistant professor, A C. College of Engineering and Technology, Karaikudi, my mother, son and daughter who have been helping me through every walk of my life, guiding me and showering their benediction throughout the endeavor.

K. KARTHIKEYAN
