CONTENTS

PRELIMINARY SECTION

CHAPTER I

1.1. Importance of the study 1 - 3
1.2. Need and justification 3 - 5
1.3. Statement of the research topic 5
1.4. Definitions of the terms 6
1.5. Objectives of the test 6 - 8
1.6. Assumptions underlying the research problem 8
1.7. Delimitation of the test scale 9

CHAPTER II

REVIEW OF RELATED LITERATURE 10-38

CHAPTER III

TEST CONSTRUCTION 39-126

3.1. Nature of the items in different sub-tests 40-41
3.2. A brief explanations about the category of sub-test and items in the test scale 41-46
3.3. Try-out of the items for the test 46-47
3.4. Item analysis 48–49
3.5. Assessment of difficulty index 49
3.6. Discrimination index 50
3.7. Item screening 50–63
3.8. Calculation of mean and standard deviation 64–66
3.9. Directions for administration of the test 67
3.10. Scoring procedure 67–68
3.11. Time limit for the test 68
3.12. Right answers for each item 69
3.13. Materials prepared for the test 70–126
  (1). Test booklet 71–86
  (2). Separate answer sheet 87
  (3). Stencil scoring key 88
  (4). Test manual 89–126

CHAPTER IV
TEST STANDARDIZATION 127–213
4.1. Universe 127
4.2. Sample 128
4.3. Test administration 132–134
4.4. Distribution of the test scores and analysis
4.5. Reliability Computation
4.6. Validity Computation
4.7. Establishing norms
4.8. Percentile norms
4.9. Stanine norms
4.10. Determination of deviation IQs.
4.11. Inter-changeability of percentile, ranks, stanines and deviation IQs.
4.12. Discussion and interpretation
4.13. Summary

BIBLIOGRAPHY

APPENDICES

Appendices I. Calculation of Mean and S.D. 217-231
Appendices II. Computation of Percentiles 232-244
Appendices III. Computation of Stanine Stanines 245-257
Appendices IV. Determination of deviation IQs. 258-270
Appendices V. Computation of inter-sub-tests validity 271-289
Appendices VI. Basic data for the test 290-340
# LIST OF TABLES

</table>
TABLE No. TITLE Page

4.4.(viii). Raw-scores frequency distribution in different age groups (age 12 to 19 girls) 144

4.5.(i). Test scores distribution totals of (both boys & girls) 146

4.5.(ii). Class-wise frequency distribution with mean and s.d. (boys & girls) 147

4.5.(iii). Class-wise frequency distribution of the test scores of boys with mean and s.d. 148

4.5.(iv). Class-wise frequency distribution of the test scores of the girls with mean and s.d. 149

4.5.(v). Age-wise frequency distribution of the test scores of (boys & girls) with mean and s.d. 150

4.5.(vi). Separate age-wise test scores distribution of boys and girls with mean and s.d. 151

4.6. The values of the test reliability for different classes 153

4.7. The reliability of the test for different classes and total test 154

4.8.(i). The correlations of the subtests (Matrix) 164

4.8.(ii). Scores of all the subtests (X or Y); (X² or Y²) and XY for subtests correlations of the test 165
