ACKNOWLEDGEMENT

The author wishes to express her most sincere gratitude and indebtedness to her supervisor Prof. R. A. Lal, Department of Chemistry, North-Eastern Hill University, Shillong-793022, Meghalaya for his guidance, valuable suggestions and discussions during the tenure of this work. His generous attitude has immensely helped her to do this research work and complete it successfully.

The author desires to express her gratitude to the former and present Head, Dept. of Chemistry, North-Eastern Hill University, Shillong, Prof. R. K. Poddar and Prof. R. H. D. Lynghdoh for providing all the necessary laboratory facilities. Further, author is thankful to the Dean of Physical Sciences, Prof. K. Ismail and other Faculty members of the Department of Chemistry, North-Eastern Hill University, for their cooperation during the progress of this work.

The author desires to convey her sincere gratitude to Dr. A. Lemtur, Department of Chemistry, North-Eastern Hill University, Shillong, for his constant help and guidance in cyclic voltammetric studies. The author also thanks Prof. B. Myrboh and Dr. E. K. Rymmai for their suggestions and help.

The author is thankful to other staff members of Chemistry Department, for their constant help. She is thankful to SAIF (NEHU), Shillong; IIT, Mumbai; CDRI, Lucknow; IIT, Guwahati; IACS, Jadavpur for carrying out spectral studies and elemental analyses.

She is thankful to Council of Scientific and Industrial Research, New Delhi for the award of Senior Research Fellowship.
The author conveys her thanks to her friends and all well-wishers for their help, support, valuable suggestions, encouragement and cooperation at various stages of her work.

The author wishes to express her deepest sense of gratitude to her beloved father, mother, brothers and sisters for their immense love, care, affection, inspiration and support throughout her academic life.

Date: 24th June 2008
