Acknowledgement

I take this opportunity, with immense pleasure to express my deep sense of gratitude and thanks to my respected teacher and supervisor, Dr. Raghuvir Singh, Professor and Head, Department of Physics, North-Eastern Hill University, Shillong, for introducing me to this subject and giving me constant encouragement, advice and guidance in undertaking this work, without which this work would have not been possible.

I also wish to acknowledge Dr. D.T. Khathing, Professor and Head, R.S.I.C, North-Eastern Hill University, Shillong and Prof. C.S. Shastry, Dean, School of Physical Sciences, North-Eastern Hill University, Shillong for their interest in the progress of my work.

I am extremely grateful to my senior labmates Dr. M. Sudarshan and Dr. V.R. Rao for the fruitful discussions and valuable suggestions which helped me in completing this work. I wish to thank Mr. S. Banarjee for providing the APPLE and LSF codes to our laboratory which helped me in doing my analysis.

This column remains incomplete if I forget to acknowledge my other close friends, Srinivas, Jayanta, Felix Basabadutta and Susan for their selfless help during this work. There are many other friends to be acknowledged whose names are not mentioned here. But I humbly thank them all.

I feel happy to acknowledge my uncle, C.T. Sakaria, and all my relatives for extending all possible help. A large debt
of gratitude is owed to late Rev. Dr. JOSEPH KARIMPALIL and to my teachers in St. Alosius College with whom I was associated.

Last of all, I would like to thank my grand parents, parents and all my family members for giving me continuous encouragement and help which enabled me to complete this work.

(JOCHAN JOSEPH)
