LIST OF TABLES

Table : 1.1  Medical Practitioners (Clinical and Non-Clinical section).  9

Table : 3.1  Data summary regarding Sample.  59
Table : 3.2  Details of the Sample.  60
Table : 3.3  Survey Questionnaires employed in the Study.  61

Table : 4.1  Medical Practitioners – Information Needs : Factor Analysis Results.  68
Table : 4.2  Inter Correlation and Mean Scores Among Medical Practitioners
            (Information Needs).  71
Table : 4.3  Printed Information Sources: Factor Analysis Result.  73
Table : 4.4  Inter-Correlation and Mean Scores Among Medical Practitioners
            (Printed Information Sources).  78
Table : 4.5  Non-Printed Information Sources: Factor Analysis Results.  80
Table : 4.6  Inter-correlation and Mean Scores Among Medical Practitioners
            (Non-Printed Information Sources).  82
Table : 4.7  Information Channels: Factor Analysis Results.  84
Table : 4.8  Inter Correlation and Mean Scores Among Medical Practitioners
            (Information Channel)  88
Table : 4.9  Information Barriers : Factor Analysis Results.  90
Table : 4.10 Inter Correlation and Mean Scores Among Medical Practitioners
Table: 4.11  Inter-correlations among information needs, sources, channels and barriers of Medical Practitioners.

Table: 5.1  Present Age Group of Respondents (Frequency count into %) (n=397).

Table: 5.2  Joining Age Group of Respondents (Frequency count into %) (n=397).

Table: 5.3  Sex of the Respondents (Frequency count into %) (n=397).

Table: 5.4  Marital Status of Respondents (Frequency count into %) (n = 397).

Table: 5.5  Designation-wise representation of Respondents.
(Frequency count into %) (n=374).

Table: 5.6  Joining Qualification of Respondents (Frequency count into %) (n=397).

Table: 5.7  Present Qualification of Respondents (Frequency count into %) (n=397).

Table: 5.8  Specialization of Respondents (Frequency count into %) (n = 397).

Table: 5.9  Working in Present Organization of Respondents
(Frequency count into %) (n = 374).

Table: 5.10  Working in Profession of Respondents (Frequency count into %) (n = 397).

Table: 5.11  Working in present position of Respondents
(Frequency count into %) (n = 374).

Table: 5.12  Working in other Organization of Respondents
(Frequency count into %) (n = 374).

Table: 5.13  Inter-correlation among background variables of medical practitioners.

Table: 5.14  Medical Practitioners: Background Variables Versus Information Needs
(ANOVA) (n = 397).

Table: 5.15  Medical Practitioners: Background Variables Versus Information Needs
(ANOVA) (n = 397).

Table: 5.16  Medical Practitioners : Background Variables Versus Printed Information
Table: 5.17 Medical Practitioners: Background Variables Versus Printed Information Sources (ANOVA) (n = 397).

Table: 5.18 Medical Practitioners: Background Variables Versus Non-Printed Information Sources (ANOVA) (n = 397).

Table: 5.19 Medical Practitioners: Background Variables Versus Non-Printed Information Sources (ANOVA) (n = 397).

Table: 5.20 Medical Practitioners: Background Variables Versus Information Channels (ANOVA) (n = 397).

Table: 5.21 Medical Practitioners: Background Variables Versus Information Channels (ANOVA) (n = 397).

Table: 5.22 Medical Practitioners: Background Variables Versus Information Barriers (ANOVA) (n = 397).

Table: 5.23 Medical Practitioners: Background Variables Versus Information Barriers (ANOVA) (n = 397).

Table: 6.1 Groups of Respondents (Frequency count into %) (n = 397).

Table: 6.2 Medical Practitioners Versus Information Needs (ANOVA) (n = 397).

Table: 6.3 Medical Practitioners Versus Printed Information Sources (ANOVA) (n = 397).

Table: 6.4 Medical Practitioners Versus Non-Printed Information Sources (ANOVA) (n = 397).

Table: 6.5 Medical Practitioners Versus Information Channels (ANOVA) (n = 397).

Table: 6.6 Medical Practitioners Versus Information Barriers Between Clinicians And Non-clinicians (ANOVA) (n = 397).

Table: 6.7 Status of Respondents (Frequency count into %) (n = 397).
Table 6.8  Medical Practitioners Versus Information Needs (ANOVA) (n=397). 135

Table 6.9  Medical Practitioners Versus Printed Information Sources (ANOVA) (n=397). 136

Table 6.10  Medical Practitioners Versus Non-Printed Information Sources (ANOVA) (n=397). 136

Table 6.11  Medical Practitioners Versus Information Channels (ANOVA) (n=397). 137

Table 6.12  Medical practitioners Versus Information Barriers (ANOVA) (n=397). 138

Table 8.1  Summary of the Present Status of Library Facilities in North East India. 152
