ACKNOWLEDGEMENTS

I begin by bowing in reverence before Almighty Allah, the most beneficent and merciful. He has blessed me with the will and strength to conduct this research.

It gives me immense pleasure as I express my profound sense of gratitude and respect for my supervisor Dr. M. Owais for his able guidance, incessant efforts, keen interest in my work, constructive criticism, prudent suggestions, and constant encouragement that has helped no bounds to complete my work and this thesis. Without his contribution it would have not been possible to bring my work where it is this date.

I am sincerely thankful to the Coordinator of this unit, Prof. M. Saeemuddin for providing all facilities and remaining so generous throughout the course of my study.

I pay my sincerest homage to the late Prof. A. Saeemuddin for his immense efforts and sacrifices to establish this Institute.

I convey special thanks to Dr. Wahajul Haq, Senior Scientist, Central Drug Research Institute (CDRI), Lucknow for generously providing his help and invaluable support.

I am immensely grateful to Dr. Aijaz Ahmad Khan, Reader, Department of Anatomy, J.N.M.C. Agra for providing limitless facilities in his laboratory and many valuable suggestions, which enabled me to give meaningful conclusion to my research work.

I earnestly thank Dr. Rizwan A. Khan, Dr. Aadullah Khan and Dr. Nina Younis of this unit for their help and able advice. I remain indebted to Dr. Y. M. Kakoo, Director, National J.N.M.C. Institute for Leprosy (NJNML), Agra who has been a constant source of inspiration and guidance since my M.Sc. and to my teachers at J.N.M.C. Dr. U. Sengupta, Emeritus Director, Dr. Beenu Joshi, Dr. I. Hussain, Dr. Y. D. Sharma and Dr. K. Mohanty.
Dr. C. M. Gupta and Dr. Yogeshwar Shukla, Industrial Toxicology Research Center (ITRC), Lucknow require special mention for providing me much needed facilities. I thank them for their significant help.

It is a privilege to express my deep sense of gratitude to Swalesha Babhi who encouraged me during the full tenure of my Ph.D. programme.

I am exceedingly grateful to my dearest seniors, Dr. Mazooj A. Khan and Dr. S. M. Faisal, for friendly environment and timely needed help. Words fail to describe just how much they have supported me and sharpened my knowledge and skills.

I am not having words to thank my junior colleagues Varun Dwarodi and Maroof Alam for their timely cooperation and valuable suggestions. My friends Anoop Raj Allah, Arvind Pratap Singh, Sushmita Sinha and Syed Abuwar have been very supportive all through these years and I take this opportunity to thank them humbly. I am also thankful to Madhulika madam, Hazir sir, Neetu Kaira, Shodeo Prasad, Midhi Migam, Shilpa Srivastava and Khavi Saxena who in some way or the other have helped me immensely.

I extend my warm thanks to my senior colleagues Dr. Sabgeenaa Haseem, Dr. Soghra Haq and to my colleagues Shahab Mr. Sharma, Sahseen Hasli, Rubab Mehmood, Iram Saleem, Nida Jameel Khan, Farah Haseem, Basir Ahmed, Barira Islam, Rakhsana Jabeen and Tasleen Ashraf who cooperated a lot from time to time. I also thank my juniors S. M. Rif, Akram wali, Hasoor Aliyan, Shahper, Hafesa Khatoon, Priyankar Son, A. M. Malick, Ankita, Abjas, Motraj, Faraz, Ejaz, Rahmat, Rosina, Tainab, Sana, Sabaf, Shadi and my room mates Sarfaraz, Saiyan, Asad for their cooperation.

I highly appreciate the cooperation from Aqedar bhai and Faisal bhai of DCS of this unit. I most sincerely thank the technical and non-teaching staff of the department Amir bhai, Lal bhai, Hazir bhai, Islam bhai, Rameek bhai, Chandarpal bhai, Islam bhai, Asem bhai and Maskhooor.

The invaluable support, constant encouragement and never ending patience shown by my parents, my brother (Asjad), three sisters (Rukhsar, Tehmina, Gul Bahar), my
brother in law (Janveer bhai), my wife (Shabana) and all my relatives especially my uncle (Dr. J. H. Khan), Afzal bhai and Afsar bhai can never be described through mere words. Their prayers and blessings are what have seen me past difficult times throughout my life. I fondly mention my four nieces (Kooriya, Smaan, Skanila, Askya) and twin nephews (Irfan and Inshat) for the affection they have showered on me.

I gratefully acknowledged financial support from Indian Council for Medical Research (ICMR) in the form of ECF without which it would have been difficult for me to carry on my Ph. D. work.

I express my gratitude for all those selfless animals that gave their sacrifices for completion of this work.

(Arif Khan)
