ACKNOWLEDGEMENT

This thesis is the end of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends, colleagues, and various institutions. At the end of my thesis I would like to thank all those people who made this thesis possible and an unforgettable experience for me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

This is the pole-point of expressing gratitude to my research supervisor Dr. Parthadeb Ghosh, Department of Botany, University of Kalyani for his competent guidance, endless support, encouragement and meticulous propelling during the research mission, the tenure of investigation and the check out mode of the thesis. Being fortunate I have been assimilated a gainful thorough knowledge of experimental assistance under his progressive monitoring during the entire tenure of my work. Having been imbibed from his attitude of austerity toward science and methodical approach to intervene the scientific problem comply us to our field of interest.

I convey my gratitude to Dr. Asit B. Mandal, DSR, I.C.A.R for his kind co-operation, for valuable advice, constructive criticism, and his extensive discussions. He has provided all necessary infrastructure and resources to accomplish my research work during the initial phase of the present study.

I acknowledge with a great sincere to Dr. P.R. Choudhury of DSR for his understanding, encouragement, and personal attention which have provided good and smooth basis for my Ph.D tenure.

I take this opportunity to sincerely acknowledge the Indian Council of Agricultural Research (I.C.A.R) Government of India, New Delhi for providing financial assistance in the form of Senior Research Fellowship which buttressed me to perform my work comfortably.
I remark fully indebted to Prof. Padma Chatterjee, Prof. Animesh Kumar Dutta, Dr. Sankar Narayan Singha and Dr. Sudipta Roy for their whole hearted facilitation during their headship to use the instruments time to time needed during my research tenure. I remain grateful to Prof. G. G. Maiti, Prof. S. C. Chowdhury and other teachers of the department of Botany for their valuable suggestions including the endless motivation.

I want to keep off my hat for the indefatigable support and durable construction of my lab colleagues especially to Dr. Tarak Dhar, Dr. Soumen Saha, Dr. Arghya Ghosh, Mr. Sanjib Chattopadhyay, Mr. Sinchan adhikari, Mr. Abdul Kader, Dr. Asim Chakraborty, Mr. Sauro Tapas Dey, and Apart from them I like to acknowledge the fellowship attitude of all other research fellow of the Department notably Dr. Supriya Roy, Anindita Nan, Sataadru Pramanick. I convey my warm hearty feeling to Ms. Anjana Bora, Mr. Amardeep Nath, Ms. Anumeha Pant, Mr. Pavan Bind, Mr. Avinash Pathak, Ms. Supriya Tomar, Miss Garima Singh for their assistance during my work at DSR, Mau. I am grateful to all Scientist for their support and encouragement during this work at DSR,

Words are not enough to express my sense of indebtedness towards my friends Paromita Ghosh, Pampa Majumdar, Atreyee Gupta and Mr. G. Nataraj for their continuous encouragement and inspiration during my work. Without their inspiration my research journey could be monotonous. I am also thankful to Dr. Amit Das (Dupont, India) for his extended mental support during my odd times.

Finally, I want to keep the portrait of my parents over my head for their blessing and principle of honesty towards truth. My special thanks to my husband for his patience and support till the end. I owe everything to them. Lastly I want to thank you almighty for every blessing I got in my life.
