<tbody>
<tr>
<td>3.1.1</td>
<td>Sample break-up on the basis of years of service and personality dimensions</td>
<td>78</td>
</tr>
<tr>
<td>3.1.2</td>
<td>Sample break-up on the basis of religion and personality dimensions</td>
<td>78</td>
</tr>
<tr>
<td>3.1.3</td>
<td>Sample break-up on the basis of qualification and personality dimensions</td>
<td>79</td>
</tr>
<tr>
<td>3.1.4</td>
<td>Sample break-up on the basis of service sectors and personality dimensions</td>
<td>79</td>
</tr>
<tr>
<td>3.1.5</td>
<td>Sample break-up on the basis of marital status and personality dimensions</td>
<td>79</td>
</tr>
<tr>
<td>3.1.6</td>
<td>Sample break-up on the basis of hostility and personality dimensions</td>
<td>80</td>
</tr>
<tr>
<td>3.1.7</td>
<td>Sample break-up on the basis of age and personality dimensions</td>
<td>80</td>
</tr>
<tr>
<td>3.1.8</td>
<td>Sample break-up of low and high groups of occupational stress and multiphasic hostility</td>
<td>80</td>
</tr>
<tr>
<td>3.2.1</td>
<td>Classification of variables according items</td>
<td>85</td>
</tr>
<tr>
<td>3.2.2</td>
<td>Reliability of 15 subtest of occupation stress</td>
<td>89</td>
</tr>
<tr>
<td>4.1.1</td>
<td>Multiphasic hostility inventory: t-values of the draft scale</td>
<td>109</td>
</tr>
<tr>
<td>4.1.2</td>
<td>Multiphasic hostility inventory final: item dimensions</td>
<td>110</td>
</tr>
<tr>
<td>5.1.1</td>
<td>Inter correlation between inertia, activation and stability</td>
<td>113</td>
</tr>
<tr>
<td>5.1.2</td>
<td>Inter correlation between over all multiphasic hostility and its sub variables</td>
<td>114</td>
</tr>
<tr>
<td>5.1.3</td>
<td>Inter correlation between over all occupational stress and its sub variables</td>
<td>116</td>
</tr>

</table>
5.3.10 Results of step-II regression analysis
5.3.11 Results of step-III regression analysis
5.3.12 Results of step-IV regression analysis
5.3.13 Results of the step-V regression analysis
5.3.14 Results of the step -VI regression analysis
5.3.15 Results of the step VII regression analysis
5.3.16 Details regarding increase in the percentage variation
5.3.17 Correlation coefficient between criterion variable and predictor variables
5.3.18 Results of step-1 regression analysis
5.3.19 Results of step-II regression analysis
5.3.20 Results of step-III regression analysis
5.3.21 Results of Step IV Regression Analysis
5.3.22 Results of the step V regression analysis
5.3.23 Results of the step VI regression analysis
5.3.24 Results of the step VII regression analysis
5.3.25 Details regarding increase in percentage variation
5.4.1 Results of two-way ANOVA of overall multiphasic hostility and its sub variables with groups of years of service and personality dimensions of IAS
5.4.2 Mean and standard deviations of over all multiphasic hostility and its sub variables with groups of years of service and personality dimensions of IAS
5.4.3 Results of two way ANOVA of over all occupational stress and its sub variables with groups of years of service and personality dimensions of IAS
5.4.4 Means and standard deviations of over all occupational stress and its sub variables with groups of years of service and personality dimensions of IAS
5.4.5 Results of two-way ANOVA of HDI-raw scores, HDI-17 scores and HDI-melancholia with groups of years of service and personality dimensions of IAS
5.4.6 Means and standard deviation of HDI-raw score, 17 score, and melancholia with groups of years of service and personality dimensions of IAS

5.4.7 Results of two-way ANOVA of over all multiphasic hostility and its sub variables with groups of marital status and personality dimensions of IAS

5.4.8 Means and standard deviations of over all multiphasic hostility and its sub variables with groups of marital status and personality dimensions of IAS

5.4.9 Results of two-way ANOVA of over all occupational stress and its sub variables with groups of marital status and personality dimensions of IAS

5.4.10 Means and standard deviations of over all occupational stress and its sub variables with groups of marital status and personality dimensions of IAS

5.4.11 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI melancholia with groups of marital status and personality dimensions of IAS

5.4.12 Means and standard deviation of HDI-raw score, HDI-17 score and HDI melancholia with groups of marital status and personality dimensions of IAS

5.4.13 Results of two-way ANOVA of multiphasic hostility and its sub variables with religion groups and personality dimensions of IAS

5.4.14 Means and standard deviations of over all multiphasic hostility and its sub variables with religion groups and personality dimensions of IAS

5.4.15 Results of two-way ANOVA of occupational stress and its sub variables with religion groups and personality dimensions of IAS

5.4.16 Means and standard deviations of over all occupational stress and its sub variables with religion groups and personality dimensions of IAS

5.4.17 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI-melancholia with religion groups and personality dimensions of IAS

5.4.18 Means and standard deviations of HDI-raw score, HDI-17 score and HDI melancholia with religion groups and personality dimensions of IAS
5.4.19 Results of two-way ANOVA of over all multiphasic hostility and its sub variables with levels of qualification and personality dimensions of IAS

5.4.20 Means and standard deviation of HDI-raw score, HDI-17, score and HDI-melancholia with levels of qualification and personality dimensions of IAS

5.4.21 Results of two-way ANOVA of over all occupational stress and the sub variables with levels of qualification and personality dimensions of IAS

5.4.22 Means and standard deviations of overall occupational stress and its sub variables with levels of qualification and personality dimensions of IAS

5.4.23 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI-melancholia with levels of qualification and personality dimensions of IAS

5.4.24 Means and standard deviations of HDI-raw score, HDI-17 score and HDI-melancholia with levels of qualification and personality dimensions of IAS

5.4.25 Results of two-way ANOVA over all multiphasic hostility and its sub variables with groups of service sector and personality dimensions of IAS

5.4.26 Means and standard deviations of over all multiphasic hostility and its sub variables with groups of service sector and personality dimensions of IAS

5.4.27 Results of two-way ANOVA of occupational stress and its sub variables with groups of service sectors and personality dimensions of IAS

5.4.28 Means and standard deviations of occupational stress and its sub variables with groups of service sectors and personality dimensions of IAS

5.4.29 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI-melancholia with groups of service sectors and personality dimensions of IAS

5.4.30 Means and standard deviations of HDI-raw score, HDI-17 score and HDI-melancholia with groups of service sectors and personality dimensions of IAS
5.4.31 Results of two-way ANOVA of over all multiphasic hostility and its sub variables with groups of age and personality dimensions of IAS

5.4.32 Means and standard deviations of over all multiphasic hostility and its sub variables with age groups and personality dimensions of IAS

5.4.33 Results of two-way ANOVA of over all occupational stress and its sub variables with groups of age and personality dimensions of IAS

5.4.34 Means and standard deviation of over all occupational stress and its sub variables with age groups and personality dimensions of IAS

5.4.35 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI melancholia with age groups and personality dimensions of IAS

5.4.36 Mean and standard deviations of HDI-raw score, HDI-17 score and HDI melancholia with personality dimensions of IAS

5.4.37 Results of two-way ANOVA of HDI-raw score, HDI-17 score and HDI melancholia with groups of hostility and personality dimensions of IAS

5.4.38 Mean and standard deviations of HDI-raw score, HDI-17 score and HDI melancholia with groups of hostility and personality dimensions of IAS

5.5.1 Show the cell distribution of groups of occupational stress with inertia dimension of personality

5.5.2 Show the cell distribution of groups of occupational stress with activation dimension of personality

5.5.3 Show the cell distribution of groups of occupational stress with stability dimension of personality

5.6.1 Show the means, standard deviations and 't' values of three types of HDI-scores
