# TABLE OF CONTENTS

## CHAPTER I

### INTRODUCTION

- OVERTURE ........................................................................................................................... 1  
- SIGNIFICANCE OF THE STUDY ........................................................................................... 6  
- STATEMENT OF THE PROBLEM ......................................................................................... 17  
- DEFINITION AND EXPLANATION OF KEY TERMS ............................................................... 17  
- OBJECTIVES ......................................................................................................................... 23  
- RESEARCH QUESTIONS ....................................................................................................... 24  
- HYPOTHESES ...................................................................................................................... 25  
- SCOPE AND LIMITATIONS ................................................................................................. 26  
- METHODOLOGY IN BRIEF .................................................................................................... 28  
- STRUCTURE OF THE PRESENTATION .................................................................................... 32

## CHAPTER II

### REVIEW OF RELATED STUDIES

- A. INDIAN STUDIES ............................................................................................................... 34  
- B. DOCUMENTATION FROM PROGRESSIVE SYSTEMS ....................................................... 48  
- C. STUDIES EXTRACTED FROM OTHER THEMATIC PRESENTATIONS ................................ 72  
- D. STUDIES EXTRACTED FROM STANLEY HALL ................................................................. 86

## CHAPTER III

### METHODOLOGY

- A. A PREAMBLE ON METHOD AND METHODOLOGY ....................................................... 100  
- B. A THEORETICAL STATEMENT OF QUALITATIVE METHODOLOGY .............................. 103  
- C. CLARIFICATION/FOCUSING OF BASIC CONCEPTS IN QUALITATIVE RESEARCH ........ 119  
- D. A BRIEF STATEMENT OF THE METHODS COMMONLY USED IN EDUCATIONAL RESEARCH ................................................................................................................. 136  
- E. THE METHODS ADOPTED IN THIS INVESTIGATION ....................................................... 143

## CHAPTER IV

### BASIC CONCEPTUALISATIONS AND STRUCTURES IN MUSIC: WESTERN AND INDIAN.

............................................................................................................................................... 152

## CHAPTER V

### ANIMATORY MODELS FROM ANALYSIS OF MUSIC INTERSECTING OTHER DISCIPLINES AND SITUATIONS

- 1. MODELS FROM MUSIC AND RHYTHM ........................................................................... 224  
- 2. ANALOGICAL MODELS FROM OTHER COMPONENTS OF MUSIC ................................ 240  
- 3. MUSICAL RHYTHM: POETIC METER: MATHEMATICS CONVERGENCES .................... 243  
- 4. CREATIVITY IN SPECIAL FORMS IN MUSIC AND MOVEMENT .................................... 253  
- 5. ANIMATION OF DIFFERENT SUBJECTS THROUGH MUSIC .......................................... 263  
- 6. MUSIC AS SPEECH ........................................................................................................... 275  
- 7. MUSIC AND POETRY ........................................................................................................ 281  
- 8. MUSICAL MODELS OF LESSON PLAN AND CURRICULAR DESIGN .............................. 291  
- 9. THE DIALECTIC OF THE GROUP AND INDIVIDUAL ...................................................... 296  
- 10. FOLK AND ELITE IN MUSIC AND EDUCATION ............................................................ 299  
- 11. MUSIC FOR NATIONAL INTEGRATION AND INTERNATIONAL UNDERSTANDING .... 306  
- 12. INSPIRATIONS AND INSIGHTS OF GREAT MUSICIANS ............................................ 312
CHAPTER VI

EMPIRICAL AND LOGICAL TESTING OF HYPOTHESES AND MODELS.......................... 320
  PREAMBLE................................................................. 320
  A. FINDINGS FOLLOWING LEVEL I QUESTIONS AND HYPOTHESES ................. 323
  B. SURVEY RESULTS BASED ON RESPONSES OF EXPERTS.MUSIC IN SCHOOLS:
     WHAT "IS" AND WHAT "CAN BE" ........................................... 333
  C. MODELS AND THEIR TESTING: (LEVEL II QUESTION & HYPOTHESIS) ....... 337

CHAPTER VII

THE QUEST FOR MEANING IN MUSIC: SYNTHETIC MODELS BEYOND SURFACE
ANIMATION................................................................................ 353
  A. MUSIC AND MEANING ........................................................ 354
  B. MUSIC. MEANING AND CULTURAL THEORY ............................. 372
  C. POLYAESTHESIS AS A MODEL PROVIDING A SYNTHETIC FRAME ....... 401
  D. PARALLEL VISIONS IN SPACE. TIME AND LIGHT .................... 405

CODA.................................................................................. 408

BIBLIOGRAPHY

APPENDIX

*******
LIST OF TABLES & FIGURES

Table 1  Kata paya adi sankhya 170
Table 2  Tal matra: Numeric Distribution 206
Table 3  The Distance between Swaras in South Indian Melakarta System 220
Table 4  The Tetrachord forms for Chakras and Raga Numbers within Chakra 221
Table 5  Table of Ragas with symmetrical Tetra chords 222
Table 6  Tabla positions and Phonetic Sounds 279
Table 7  Weighted mean scores of Experts (N=100) on the Place of Music in Schools 333-4
Table 8  Opinion Scores (Weighted Mean Scores) of Experts (N=100) on what can be done and what should be done with reference to music education in schools 335-6
