ACKNOWLEDGEMENTS

This doctoral thesis would not have taken this shape without the help of large number of people. My fruitful journey as a doctoral student has increased my knowledge in the subject. I have gained different skill sets during my experiments, presentations, in the past four years and interaction with different people whom I acknowledge below.

First and foremost, I have no words to thank, admire and appreciate the person behind this thesis Dr. (Mrs) R. Chandramani, retired Professor from Bangalore University and presently working as Professor, Department of Physics, Dayananda Sagar College of Engineering, Bangalore, my research supervisor, whose invaluable inspiration, suggestions, profuse assistance and incessant encouragement helped me to understand the subject better. I am deeply indebted to her for her valuable advice and guidance.

I wish to express my heartfelt thanks to Dr. C. Sanjeeviraja, Professor and Head, School of Physics, Alagappa University, Karaikudi, for providing laboratory facilities such as Electron Beam Evaporation unit, XRD, Photoluminescence, UV-Vis-NIR spectrometer, Resistivity instrument, and Stylus. Without his invaluable suggestions, sincere help and competent advice, I am sure; my research work would not have been completed.

It gives me great pleasure to thank Dr. P. Kolandaivel, Professor and Head Director, School of Physical Sciences, Bharathiar University, Coimbatore for his cooperation in completing my research work. I would like to thank the Doctoral Committee members Dr. R. Kalai Selvan Assistant Professor, Dr. K. Senthilkumar Assistant Professor and Dr. M. Balasubramaniam Assistant Professor, department of Physics, Bharathiar University for their valuable suggestions and guidance to improve my research work.

It gives me immense pleasure to express my gratitude to Dr. Uma, Professor and Miss. Chaitra, Assistant Professor, Department of Electronics, Mount Carmel College, Bangalore for providing Humidity Sensor equipment in the laboratory.
I am very much grateful to Dr. Arun Kumar, Sr. Scientist, Head, Machanical Division, NAL, Bangalore for providing Micro Hardness tester facility in NAL laboratory.

I am thankful to Dr. K. Ramamurthi, Professor and Head, School of Physics, Bharathidasan University, Trichirapalli, for providing me Hall Effect instrument to carry out experiment.

My special thanks are due to Dr. T. N. Guru Row, Professor, Solid State and Structural Unit (SSCU) and Dr. Vikram Jayaram, Professor Department of Materials Engineering, Indian Institute of Science, Bangalore Indian Institute of Science (IISc) Bangalore, for giving consent to utilize Scanning Electron Microscope (SEM) and Energy Dispersive X-ray Analysis (EDAX) facilities.

I wish to thank Mr. S. Kannan Technical Staff, Solid State and Structural Unit (SSCU), IISc, Bangalore and Mr. Gurulinga, Technical Staff, Department of Materials Engineering, IISc, Bangalore for helping me to carry out SEM & EDAX analysis.

I would like to express my gratitude to Mr. Jeya Dheepan, and Mr. Prakash, Research scholars, School of Physics, Alagappa University, Karaikudi for helping me to carry out many research work during my stay in Alagappa University, Karaikudi.

I am thankful to Mr. Gokul Krishnan, Research scholar, School of Physics, Bharathidasan University Trichirapalli for helping me to conduct Hall Effect measurement.

I am grateful to Dr. D. Prem Chandra Sagar, Vice Chairman & CEO of Dayananda Sagar Institutions for an encouragement to do my research work.

It gives me immense pleasure to thank Sri. Galiswamy, Secretary, Dayananda Sagar Institutions, Dr. A. N. Murthy, Principal, and Dr. K. Karibasappa, Vice Principal, Dayananda Sagar college of Engineering Bangalore for constant support and encouragement during my 4 years of research work.
I would like to express my gratitude to **Dr. B. R. Lakshmikantha** former Dean Academic, DSCE and present Principal, Dayananda Sagar Academy of Technology and Management and **Dr. Netaji. S. Ganesan** former Principal & present Director, DSCE who always encouraged me positively during my research work.

I would like to thank all my friends and colleagues in Department of Physics and various departments of Dayananda Sagar college of Engineering, Bangalore, who always encouraged me positively during my research work.

I would like to thank my research colleague **Mr. M. N. Ravi Shankar**, for his help and cooperation in many ways to do my research work.

I have been blessed with moral support and unlimited encouragement by my parents, brother and sister. Finally, warmest thanks are due to my wife **Kiruthiga**, and to my daughter **Dheeksha** for their affection, and patience shown towards me. It would have been impossible for me to carry out this research work without their love, support, help, and encouragement.

**T. M. Rajakumar**
