Acknowledgement

When I pen down this work there was lot of persons to be acknowledged and thanked. This mere word doesn’t mean my gratitude to them, it’s much more. These all happened from the blessings of Lord Almighty and my grandparents towards the path of success.

I am greatly thankful to Dr Shashi Bala Singh, Director, Defence Institute of Physiology and Allied Sciences, DRDO, New Delhi for her encouraging support and providing all the facilities to do the research.

I pay my heartiest gratitude to my respected supervisor Dr Anju Bansal for giving me the opportunity to do science. Her versatile guidance, inspiring words of suggestion, never ending encouragement, knowledge yielding discussions, untiring involvement in this work and friendly move made my research work to see the light of the day. I am very much proud of being her student and I shall remain grateful to her in my life time.

I am highly grateful to Dr G. Ilavazhagan, for his valuable suggestions and discussion to initiate this research work.

I wish to express my sincere thanks to Dr H.V. Batra, Director, Defence Food Research Laboratory, Mysore for his timely help during my research work.

I thank Defence Research and Development Organisation (DRDO) for their support with fellowship to carry out my research work.

I am grateful to Dr S.K.S. Sarada, Dr Mrinalini Singh, Dr Deepika Saraswat, Dr Shweta Saxena, Dr Himadri Patir, Mrs. Pauline Thomas and Mr. A.K. Kain for their constant encouragement and affection throughout the entire work.

I convey my gratitude to Dr Lilly Ganju, Dr R. Sugadev and Dr K.P. Mishra for their support during my Ph.D. tenure.
I extend my sincere thanks to Dr R.J. Tirupude who helped me in providing animals used in this study. Also I am grateful to Mr. Bhagwat Singh who constantly supported me in doing the animal experiments throughout my research.

I thank my senior Dr Piyush Kumar Paliwal, Assistant Manager, Biologicals E Limited, Hyderabad, for his helping hand at time of need and valuable suggestions during my research work.

I thank Dr K. Kadirvelu, DRDO-BU center for life sciences for his kind response and help regarding Ph.D registration and its queries.

I thank my colleagues Mrs. Gurpreet Kaur, Ms. Charu Nimker, Mr. Deependra Pratap Singh and Mrs. Sonam Chawla for their support in my work.

Also I am grateful to Mr. Sivramakrishnan, Mr. Shivakiran, Mr. Prakash, Ms. Srividya, Ms. Lakshmi and other colleagues from DFRL, Mysore for their help and support in executing my experiments which is a part of the sweet memories of my research work.

I am indebted to Mr. Ajay Gupta, Dr Sarkar, Mrs. Sudipta Chanda, Mrs. Binitha, Mr. Narendra Kumar, Ms. Manju Lata Singh, Mr. Anand Prakash Yadav, Ms. Moushmi, Ms. Shohini Paul, Dr. Namrata, Mr. Arul Joseph, Mr. Manimaran for cordially sharing their time and expertise in the completion of the work.

I find no words to express my heartful thanks to Dr Veerabuthiran, Mrs. Sweety Veerabuthiran, Mr. V.Senthil, Mrs. Kavitha Senthil, Dr Senthil Kumar and Dr Celin Senthil for their true care, affection, encouragement and support towards me throughout my Ph.D tenure. I thank them for considering me as one of their family members and I can never forget them in my life. Their lovely kids V. Chandini, V. Jai Rithvik, S. Sidvika, S. Satvik, S. Simiritika and S. Sneha made my stay at Delhi as evergreen wonderful memories.

Special thanks to my roommate Ms. Sonali Chatterjii for her care and friendliness.
I owe my gratitude to my beloved parents Mr. V. Sekar and Mrs. S. Tamil Selvi which cannot be captured in words. Their untiring and incredible sacrifice, inexhaustible love and whole hearted encouragement made me achieve success in my life. I thank my dear sisters Mrs. S.T.S. Saraniyadevi Mayilvaganan, Ms. S.T.S. Suganyadevi who stood by me in every step of my life with their constant love, affection and support.

I also dedicate this thesis to my cute lovely chottu M. Mithunesh.

I bow down my head to my dear grandma Mrs. Mallika Mayavan for her blessings and affection.

I also thank my other family members who cared for my development in life.

I also thank all my well wishers I may not have mentioned here for helping me to carry out this research work successfully.

Chitradevi STS
