</table>
of population: Khatra, Ranibandh and Manbazar Police Stations

2.10 Decadewise sex ratio: Puruliya and Bankura district

3.1 Main and branch canals of the Kangsabati project

3.2 Mouzas and people affected due to submergence Appendix-III

4.1 Gridwise morphometric values: Upstream area Appendix-IV

4.2 Monthly rainfall and temperature of Puruliya, 2001 Appendix-IV

4.3 Average rainfall of Puruliya and Manbazar Appendix-IV

4.4 Number of rainy days of Puruliya and Manbazar Appendix-IV

4.5 Frequency of annual rainfall of Puruliya Appendix-IV
(1910 - 1950)

4.6 Average rainfall with pluviometric coefficient values of Puruliya (1957-60) Appendix-IV

4.7 Average rainfall with pluviometric coefficient values of Manbazar (1957-60) Appendix-IV

4.8 Monthly rainfall and temperature of Puruliya (2001) Appendix-IV

4.9 Monthly average rainfall and temperature of Manbazar (1957-60) Appendix-IV
4.10 Land types and textural grades of soil: Upstream area
4.11 Status of soil in some selected *mouzas*: Upstream area
4.12 Changing forest coverage: Upstream area
4.13 Depth of ground water in some selected wells: Upstream area
4.14 Changing density of population (1961 and 2001)
4.15 Mouza-wise changing density of population (1961 and 2001): Upstream area
4.16 Temporal variation of density of population: Upstream area
4.17 Growth of population between 1961 and 2001
4.18 Percentage decadal variation of population (1951 - 2001)
4.19 Growth of population in the selected *mouzas* between 1961 and 2001: Upstream area
4.20 Division of *mouzas* as per growth of population per annum (1961 and 2001): Upstream area
4.21 Sex ratio in 1961 and 2001
4.22 Changing sex ratio in different categories of
population between 1961 and 2001

4.23 Mouza-wise sex ratio in different categories of population (1961 and 2001): Upstream area

4.25 Category of mouzas in terms of sex ratio in percentage (1961 and 2001): Upstream area

4.26 Land types of some selected mouzas: Upstream area

4.27 Mouza-wise irrigated and non-irrigated land: Upstream area

4.28 Caste-wise break up of population (1961 and 2001) in different administrative units

4.29 Division of selected mouzas of the Upstream area on the basis of population composition

4.30 Castewise population composition and possession of land in some selected mouzas of the Upstream area

4.31 Blockwise recorded bargadars and pattadars

4.32 Number of recorded bargadars and pattadars among S.C. and S.T population in some selected mouzas of the Upstream area

4.33 District and state level occupational structure
(1991 - 2001)

4.34 Mouza-wise working and non-working population (1961 and 2001): Upstream area

4.35 Mouza-wise growth of working population (1961 and 2001) of the upstream area

4.36 Division of mouzas as per labour participation ratio of the Upstream area (2001)

4.37 Literacy rate at District and State level (1961 and 2001)

4.38 Mouza-wise literacy rate of the Upstream area for 2001

4.39 Division of mouzas as per literacy rate of the Upstream area for 2001

4.40 Mouza-wise distribution of pucca houses: Upstream area

4.41 Mouza-wise length of roads in the Upstream area

4.42 Mouza-wise distribution of dug-wells and tubewells, 2008: Upstream area

4.43 Division of population of Upstream area of the dam

4.44 Mouza wise caste groups
5.1 Gridwise morphometric values: downstream area

5.2 Seasonwise rainfall characteristics of stations Khatra and Bankura

5.3 Average rainfall and temperature of Bankura

5.4 Monthly rainfall and temperature of Bankura (2001)

5.5 Average annual rainfall with pluviometric coefficient values of Bankura (1994-2003)

5.6 Average annual rainfall with pluviometric coefficient values of Ranibandh (1994-2003)

5.7 Average rainfall and temperature of Bankura (1998-2002)

5.8 Soil testing report of some selected locations of Bankura district

5.9 Blockwise textural grades of soil

5.10 Land types and textural grades of soil: Downstream area

5.11 Land types and status of soil in some selected mouzas: Downstream area

5.12 Landuse statistics of Bankura district

5.13 Status of forests in Khatra and Ranibandh blocks
5.14 Changing forest coverage of Downstream area

5.15 Depth of ground water in Khatra and Ranibandh Blocks

5.16 Depth of ground water in some selected wells of the Downstream area

5.17 Mouzawise distribution of population (1961 & 2001) of the Downstream area

5.18 Mouzawise changing density of population (1961 & 2001) of the Downstream area

5.19 Temporal variation of density of population in the downstream area

5.20 Changing density of population at district, block and mouza level in the downstream area of the dam

5.21 Growth of population in 1961 and 2001

5.22 Percentage decadal variation of population (1951-2001)

5.24 Division of mouzas as per growth of population (1961 & 2001): Downstream area

5.25 Sex ratio in 1961 and 2001
5.26 Sex ratio in 1961 and 2001

5.27 Mouzawise sex ratio in 1961 and 2001 of the Downstream area

5.28 Categories of mouza in terms of sex ratio of the Downstream area in percent (1961 and 2001)

5.29 Changing sex ratio in different categories of population of the Downstream area in 1961 and 2001

5.30 Landuse Statistics of Downstream area (Kharif Season)

5.31 Mouzawise irrigated and non-irrigated land of the downstream area

5.32 Average rainfall and temperature of Bankura (1998-2002)

5.33 Month wise temperature (maximum and minimum) and rainfall of Bankura

5.34 Month wise average rainfall and optimum need of rainfall for cultivation of paddy.

5.35 Caste-wise breakup of population in different administrative units (1961 and 2001)

5.36 Caste-wise division of mouzas of the Downstream area

5.37 Caste wise possession of land in some selected
mouzas of downstream area of the Dam

5.38 Block-wise recorded bargadars and pattadars

5.39 Distribution of bargadars and pattadars among the various social groups (upto 15/7/2006)

5.40 State, District and Mouza level occupation structure

5.41 Mouza-wise Working and Non-working population

5.42 Mouza-wise growth of working population of the Downstream area (1961-2001)

5.43 Division of mouzas as per labour participation ratio of the downstream area (2001)

5.44 Literacy rate of Khatra and Ranibandh Blocks (1961 and 2001)

5.45 Mouza-wise literacy rate of the downstream area of the Dam

5.46 Division of the Downstream mouzas on the basis of literacy rate

5.47 Length of roads in km

5.48 Block-wise percentage of electrified mouzas

5.49 Caste-wise division of population of the downstream area of the dam
6.1 *Mouza* wise submergence of land in the Upstream area

7.1 Year-wise development of irrigation in Kangsabati command area

7.2 Year-wise development of irrigation in Kangsabati command area

7.3 Storage position of Kangsabati reservoir, West Bengal

7.4 Seepage loss of water in Kangsabati command area

7.5 Sedimentation studies of Kangsabati reservoir
