ACKNOWLEDGEMENTS

I deem it a privilege to express deep sense of gratitude to my revered teacher, affectionate research guide Prof. R. SREENIVASULU, M.Sc., Ph.D., Department of Chemistry, Sri Krishnadevaraya University, Anantapur for his inspiring guidance, deep involvement, memorable attitude, illuminating insights and above all, for his constant encouragement in completing the research work successfully.

I would like to express my sincere thanks to the authorities of Sri Krishnadevaraya University for providing necessary facilities and to B.C. welfare department, Anantapur for the financial assistance rendered to carry out research work.

My sincere thanks are due to the staff members, Department of Chemistry, S.K. University for their timely help, cooperation and useful suggestions given during the course of the work. I take this opportunity to thank Dr. T. Balaji M.Sc., Ph.D., for providing necessary chemicals for the preparation of various azomethine compounds.

I am thankful to Mrs. R. Sreenivasulu and other family members for their hospitality and generosity bestowed in need. I am thankful to Dr. K. Sudhakar Babu, Associate Professor, Department of Chemistry, S.K.U.P.G. Centre, Kurnool for extending help to me during the course of the work.

I take this opportunity to thank Indian Space Research Organisation (ISRO) for giving financial support to work as project fellow in the project.
entitled "Air Space Pollutants and Environment". I also express my sincere thanks to Prof. T.V. Ramakrishna Rao, Director, Nova College of Engineering and Technology, Jangareddy Gudem, Prof. S. Venkata Siva Murthy, Retd. Professor of Mathematics, Prof. Syed Gouse Peeran, Retd. Professor of Chemistry and Prof. R. Ramakrishna Reddy, Professor of Physics, for giving valuable suggestions during the course of the work.

My thanks are also due to Prof. K. Mohana Raju, Professor of Polymer Science & Technology and Dr. C. Nagaraju, Associate Professor of Instrumentation & USIC for their timely help rendered during writing of the thesis.

I am very much thankful to the authorities of Indian Institute of Chemical Technology, Hyderabad for recording IR and NMR spectra of the compounds and Indian Institute of Science, Bangalore for permitting me to collect literature on my research problem.

I express my sincere gratitude to all my friends T. Sreenivasulu, V. Ravi Raja Kumar, K. Rama Mohan, Dr. K. Shantha, Dr. S. Giridhar, Dr. A. Sreenivasulu Reddy, Dr. M. Jagadeesh, Dr. S. Venkataswamy, Dr. P.S. Murali Mohan Redy, Dr. M. Ramesh Reddy and K. Ramakrishna who with their love and affection inspired and encouraged me a lot.

I will be failing in my duty if I do not acknowledge the encouragement, affection and help received from my parents in my entire academic activities. Heartfelt gratitude to my father and mother for providing me the suitable atmosphere while completing the research work.
My heartfelt affections are due to my brother B. Chenna Rayudu, Regional Recruiter, METLIFE and sister-in-law Dr. T. Jayashree, Post Doctoral Fellow, CCMB, for their timely help, constant encouragement and assistance extended in completion of the thesis. Affectionate expressions are also due to my sister B. Sree Gowri, brother-in-law A. Venkateswarulu and family for their affection and moral support.

I would also like to express my deep heartfelt gratitude to my dearest friend Dr. Jigyasa Saraswat, Lecturer in Chemistry, Mody Institute of Science and Technology, Sikar, Rajasthan for her kind cooperation, encouragement and inspiration during the completion of this work.

I extend my cordial thanks to Ram_Sun institute and Sahadevan, Technician, USIC for bring the thesis in the present form with meticulous care.

Last but not the least, I would like to record my sincere thanks to those who rendered their help directly or indirectly in shaping this thesis.

BANDARU SREEDHAR
