My sincere thanks to Kamalji and Pratibha, for going out of their way to ensure that our fellowships are on time and for their ever timely and cheerful help. I am also indebted to Mr. RK Joshi for taking time out of his busy schedule and helping out with the poster presentations. Thanks are also due to the IT help desk and officers who promptly attended to our complaints to ensure that our research never stopped because of a computer fault. A special thanks to our dispatch department and library for their support.

I am extremely thankful to the officers of the Electrical Department Mr. Dinesh, Mr. Ashok, Mr. Nautiyal, Mr. Dogra and Mr. Mahesh for their 24x7 support. If it wasn’t for their day and night vigilance of our incubators and shakers, this work would have been impossible.

I am blessed to have the parents that I have. Without their love and support, this would be an impossible task for me. Thank you Dad for all the wise discussions that you have had with me. They have always been very helpful and thank you for keeping a tab on the timeline of my work. Without your constant reminders, this work would have taken few more years. Mom thank you for being my best friend and bearing with all my moods during tough times. Thank you bro for being there.

If I have left out some people, my forgetfulness may please not be mistaken for ingratitude. I am thankful to all the people who have enriched my life and helped me directly or indirectly in these past years.
