Acknowledgement

I would like to express my gratitude to all those who helped me during my PhD research tenure.

First of all, I would like to thank my supervisor, Dr Abha Agnihotri, Fellow, Industrial and Environmental Biotechnology, TERI for her noble guidance, immense interest, constant encouragement and affectionate behaviour during my research work.

My sincere thanks are due to Dr R K Pachauri, Director General, TERI and Dr Vibha Dhawan, Vice-Chancellor, TERI School of Advanced Studies for providing the infrastructure and necessary facilities.

My gratitude towards Professor Subhash Chander, Advisor; Grp Capt (Rtd) Rajeev Seth, Registrar TERI School of Advanced Studies for their support and co-operation. Thanks are due to Administrative Staff of the university for their co-operation.

I am grateful to the members of my research committee Dr T S Panwar, Dr Nidhi P Chanana and Dr Alok Adholeya for their useful suggestions during the course of periodic assessment. Thanks are due to Dr Banwari Lal, Director, Industrial and Environmental Biotechnology, TERI to use the laboratory facilities. Guidance by Dr Nutan Kaushik and all other faculty members of Bioresources and Biotechnology during the course of investigation is duly acknowledged.

I am extremely grateful to Dr K R Shivanna, Emeritus Scientist, ATREE, Bangalore and Dr N B Singh, Agriculture Commissioner, Former Assistant Director General (Oilseeds & Pulses) as the external members of research committee during my comprehensive examination for their scientific acumen in improving the PhD research plan. My indebtedness to Professor V P Gupta, Former Head, Department of Genetics & Plant Breeding Himachal Pradesh Krishi Vishva Vidyalya, Palampur for his constructive criticism and never ending guidance, especially for the statistical analysis.

My deep sense of indebtedness to Professor S J Kolte and Professor R P Awasthi from Department of Plant Pathology, GB Pant University of Agriculture & Technology, Pantnagar and Dr N I Nashaat, Scientist, Division of Host Pathogen Interaction, Rothamsted Research Institute, UK for making me understand the practical aspects of Plant Pathology and for their noble guidance, willing help and constant inspiration during my entire research programme.
Acknowledgement

I would like to acknowledge people at Gual Pahari and staff members of Tissue Culture Media Lab including Mr Narayan Chand and Mr Rajkumar for their help and cooperation during my research work. Guidance and support provided by Mr M S Negi and Mr Anoop Sharma is duly acknowledged.

Ever-helping attitude by Mr Sajit Kumar during manuscript preparation, Mr R K Joshi, Publication Unit and people from the Library, Electrical division, CIT helpdesk from computer section, Photocopy section and Purchase section is duly acknowledged.

Very special thanks to our lab members; Mr Gautam Sarkar and Mr. Bir Singh for their helping hand and prompt support especially during my field work at Gual Pahari research station. Thanks are also to our new lab member Chandan Khemani for his cheerful co-operation.

My special thanks to Deepak Prem who has been with me throughout my tenure for extensive discussion, timely help and care. Thanks are due to all my friends and colleagues for their good company.

No words of mine can adequately express my indebtedness to my father for critical review of my work. I express thanks to my mother for immense patience and constant encouragement, sister for carefully checking my references and my brother for his efforts. Thanks are also due to my in-laws for their understanding nature and co-operation.

Last but not the least, my heartily thanks to my husband Dr V Kathuria for his unrelenting support, encouragement and painstaking efforts for timely completion of this piece of research work.

Finally, I gratefully acknowledge the financial support provided by TERI through ICAR-DFID sponsored project to carry out research on Brassicas in a more comprehensive way.

Above all, I thank Almighty God.

Kadambari
