# CONTENTS

## Chapter 1.

- **Section 1.1**: Introduction 1-15
- **Section 1.2**: Review of past work 16-34
- **Section 1.3**: Objectives of present investigation 35-37
- **Section 1.4**: Importance of present work 38-53

- **Section 2.1**: A brief description of the Equipment used in the present study. 54-56
- **Section 2.2**: Synthesis of new reagents used in the present work. 57-59
- **Section 2.3**: Preparation of solutions. 60-65
- **Section 2.4**: General procedures used in the present study. 66-75

## Chapter 3. Characterization of new organic reagents (Hydrazones). 76-86

## Chapter 4. Spectrophotometric determination of palladium.

- **Section 4.1**: A brief review on past work. 87-92
- **Section 4.2**: Direct spectrophotometric determination of Pd(II) using 2-hydroxy-3-methoxybenzaldehyde isonicotinoyl hydrazone (HMBIH). 93-100
- **Section 4.3**: Derivative spectrophotometric determination of Pd(II) using HMBIH. 101-105
- **Section 4.4**: Direct spectrophotometric determination of Pd(II) using bis(vanillin)thiocarbohydrazone (BVTH). 106-112
- **Section 4.5**: Derivative spectrophotometric determination of Pd(II) using BTVH. 113-118
# Chapter 5. Spectrophotometric determination of molybdenum.

**Section 5.1:** A brief review on past work.

**Section 5.2:** Direct spectrophotometric determination of Mo(VI) using $3,5$-dimethoxy-$4$-hydroxybenzaldehyde isonicotinoylhydrazone (DMHBIH).

**Section 5.3:** Derivative spectrophotometric determination of Mo(VI) using DMHBIH.

# Chapter 6. Spectrophotometric determination of copper

**Section 6.1:** A brief review on past work

**Section 6.2:** Direct spectrophotometric determination of Cu(II) using 2-hydroxy-$3$-methoxybenzaldehyde isonicotinoyl hydrazone (HMBIH).

**Section 6.3:** Derivative spectrophotometric determination of Cu(II) using HMBIH.

**Section 6.4:** Direct spectrophotometric determination of Cu(II) using $3,5$-dimethoxy-$4$-hydroxybenzaldehyde isonicotinoylhydrazone (DMHBIH).

**Section 6.5:** Derivative spectrophotometric determination of Cu(II) using DMHBIH.

# Chapter 7. Spectrophotometric determination of cobalt

**Section 7.1:** A brief review on past work

**Section 7.2:** Direct spectrophotometric determination of Co(II) using 2-hydroxy-$3$-methoxybenzaldehyde isonicotinoyl hydrazone (HMBIH).

**Section 7.3:** Derivative spectrophotometric determination of Co(II) using HMBIH.

**Section 7.4:** Direct spectrophotometric determination of Co(II) using $3,5$-dimethoxy-$4$-hydroxybenzaldehyde isonicotinoylhydrazone (DMHBIH).

**Section 7.5:** Derivative spectrophotometric determination of Co(II) using DMHBIH.
Chapter 8. Spectrophotometric determination of mercury

Section 8.1: A brief review on past work 208-213

Section 8.2: Direct spectrophotometric determination of Hg(II) using 3,5-dimethoxy-4-hydroxybenzaldehyde isonicotinoylhydrazone (DMHBIH). 214-221

Section 8.3: Derivative spectrophotometric determination of Hg(II) using DMHBIH. 222-226

Chapter 9. Summary and Conclusions 227-232
