ACKNOWLEDGEMENTS

It is needless to say that a work of this magnitude is seldom, the effort of a single person, but results from contributions of many over a period of time. During the course of such an effort, it is not uncommon that the researcher might tend at times to overlook the valuable inputs of all the persons and agencies who helped the study see the light of day if any because he realises that there is an acute constraint on space to be taken into account.

In writing this thesis I would like to express my deep sense of gratitude to my research supervisor, Prof. Ch. Rama Prasada Rao, M.B.A. Ph.D., Professor, Sri Krishnadevaraya Institute of Management, Sri Krishnadevaraya University, Anantapur. It has been a great pleasure and privilege to work under his guidance. His informal style and flexibility in approach immensely helped me to complete the work with lot of zeal and enthusiasm.
