APPENDIX - XIII

GOVERNMENT OF INDIA
DIRECTORATE GENERAL, ALL INDIA RADIO
(PLANNING & DEVELOPMENT UNIT)

No. 55(1)/66-D (SD) Akashvanî Bhavan,
New Delhi,
Dated: 27th December, 1966

The Project Officer,
All India Radio,
Eastern Project Circle,
Akashvani Bhavan, 4th floor,
CALCUTTA-1

Sub: Proposal for the establishment of All
India Radio studio centre at Cuddapah &
Availability of suitable rented
accommodation.

Reference your D.O. letter No. P.Eng.107
(Studios) dated 16th November 1966, to the Station
Engineer, All India Radio, Cuddapah, copy endorsed
to this Directorate.

The plan of the building belonging to Shri
Rajashekara Reddy of Pulivendla sent by Station
Engineer, AIR, Cuddapah has been examined. As seen
from the building plans. It is a two-storeyed
building, having a useful area of 1635 sq.ft. on
the ground floor and 445 sq.ft. on the first
floor. The total area therefore is inadequate for
housing the studios and offices in this building.
Still an attempt was made to prepare layout plan
for the studio block and it was found that
considerable structural modifications would be
necessary to provide the studios and ancillary
rooms on the first floor of this building. It is
doubtful if such major structural modifications
will be possible without affecting the structural
stability of the building.

In view of the above, it is felt that the
building is not suitable for the establishment of
studio centre at Cuddapah. You are, therefore, requested to kindly pursue the matter with the State Government to get the Judges Court Building released as early as possible. Failing to obtain the same, a survey may have to be conducted to select some other suitable building. If no suitable building is available, then we will have to select a suitable site for the construction of our own Studio-cum-Office building at Cuddapah.
